This Prospectus identifies in general terms certain information that a prospective investor should consider prior to making an investment in the Notes. However, a prospective investor should conduct its own thorough analysis (including its own accounting, legal and tax analysis) prior to deciding whether to invest in any Notes as any evaluation of the suitability for an investor of an investment in the Notes depends upon a prospective investor's particular financial and other circumstances, as well as on the specific terms of the Notes and, if it does not have experience in financial, business and investment matters sufficient to

permit it to make such a determination, it should consult its financial adviser prior to deciding to make an investment on the suitability of the Notes.

ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 CALENDAR DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 CALENDAR DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER (OR A PERSON ACTING ON BEHALF OF ANY STABILISING MANAGER) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

RISK FACTORS

Each of the Issuer and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under the Notes or the Guarantee, respectively. All of these factors are contingencies which may or may not occur and each of the Issuer and the Guarantor is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Issuer or the Guarantor believes may be material for the purpose of assessing the market risks associated with the Notes or the Guarantee are also described below.

Each of the Issuer and the Guarantor believes that the factors described below represent the principal risks inherent in investing in the Notes as guaranteed by the Guarantee. However, either the Issuer or the Guarantor may be unable to pay interest, principal or other amounts on or in connection with the Notes or the Guarantee, respectively, for other reasons and neither the Issuer nor the Guarantor represents that the statements below regarding the risks of holding any Notes as guaranteed by the Guarantee are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision. Prospective investors should note that the risks relating to the Issuer and the Guarantor, their respective industries and the Notes summarised in this section are the risks that the Issuer and the Guarantor believe to be the most essential to an assessment by a prospective investor of whether to consider an investment in the Notes. However, as these risks relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in this section, but also, among other things, should consult their financial, legal and tax advisers.

Risk Factors that may affect the Issuer/Guarantor's ability to fulfil its obligations under the Notes or the Guarantee, respectively

The Issuer, the Guarantor and the JAB-Group are exposed to certain risk factors affecting their respective abilities to fulfil their obligations under the Notes or the Guarantee, as the case may be. These risk factors relate to the business and operations of the Issuer, the Guarantor and the JAB-Group and include matters such as a decrease in the value of the JAB-Group's investments, a limited ability to raise capital and a failure to integrate newly acquired businesses. The following is a summary of these risk factors:

Market risks

Exposure to prices of investment assets

The Guarantor, as holding company, holds 100% of the Issuer via an intermediate holding company, JAB Investments S.à r.l. The Issuer is an investment company. The composition of the Issuer's investment portfolio may vary substantially from time to time (see the structure chart of the JAB-Group and its investments in the section "*Description of the Issuer*"). The market value of the portfolio directly and indirectly held by the Issuer and the Guarantor, respectively, is subject to the market prices of the assets comprising the portfolio. A decrease of such market prices may lead to a significantly lower market value of the portfolio, which may affect the creditworthiness of the Issuer, the Guarantor and/or the JAB-Group.

The Issuer holds, directly and indirectly, equity interests in both listed and unlisted companies. The value of investments in listed companies is based on the market prices of the listed companies. The value of investments in unlisted companies is determined by employing various methods, including valuations based on multiples for comparable listed entities and discounted cash flows analyses. Accordingly, changing market prices and conditions may adversely affect the value of the Issuer's assets. A sustained fall in equity and/or bond markets or changes in interest or exchange rates may reduce the Issuer's earnings significantly and for a significant period. The Issuer's expenses, e.g. interest expenses, may not decrease at the same rate

as investment markets could fall and if the Issuer is not able to manage its expenses effectively, the Issuer could experience significant and sustained losses as a consequence.

Commercial risks

Maintaining long-term ownership in holdings and a flow of investments in, and divestments from, new investment activities involves commercial risks, such as high exposure to certain industries or individual holdings, changing market conditions limiting attractive investment opportunities and barriers to exit from certain holdings at the chosen time.

Dependency on investment revenues

The Issuer is an investment company without any significant operating business and the Issuer's financial condition therefore depends upon the performance of its investment activities. The Issuer depends primarily on the receipt of funds, distributions and dividends from its investments. The ability of the companies in which the Issuer is invested to make such payments depends on the companies' economic performance and financial condition. No assurance can be given that the Issuer will receive adequate funding to maintain its financial condition. These factors could materially and adversely affect the Issuer's ability to make payments on the Notes.

The same is true in respect of the Guarantor which depends solely on the economic performance and financial condition of the Issuer as its sole material investment.

Cyclical business at the level of the operating companies

The complex global economic situation affects the earnings of the investment holdings of the Issuer. In general, the sectors in which the investment holdings operate have historically been subject to highly cyclical demand and tend to reflect the overall performance of the economy, in certain cases even amplifying the effects of economic trends. Given the difficulty of predicting the magnitude and duration of economic cycles, there can be no assurances as to future trends in the demand for, or supply of, products and services sold by them in any of the markets in which they operate. Moreover, the markets in which the Issuer's investment holdings operate are exposed to variations in energy and raw material prices or a possible reduction in infrastructure investments. Accordingly, particular circumstances could have a material adverse effect on the earnings, business prospects and financial position of the Issuer's investment holdings.

Local market conditions

The Issuer's and the Guarantor's earnings and financial positions and those of their respective investment holdings are particularly influenced by the general state of the economy in the countries in which they operate and by the variables which affect performance, including increases or decreases in gross national product, access to credit, the level of consumer and business confidence, the cost of raw materials and the rate of unemployment.

Strong competition

The Issuer operates via its investment holdings in businesses which are intensely competitive. The Issuer and its holding companies compete on the basis of a number of factors, including brand recognition, fund performance, transaction execution, products and services, innovation, reputation and price. Many of their competitors have significant financial resources, experience and marketing strength, and may have the ability to offer a wide range of products and services and to introduce innovative products or services, which may enhance their competitive position.

Sector risks

The Issuer operates in consumer goods markets via its respective investments and intends to continue to do so in the future. Although these markets are generally stable and usually have moderate volatility or sensitivity, prospective investors should inform themselves about the different consumer goods markets in

which the Issuer, the Guarantor and the JAB-Group operate via their respective investments. In addition, the Issuer is not restricted in its exercise of discretion concerning its investment decisions and it cannot be excluded that one or more investments in which the Issuer, the Guarantor or the JAB-Group participates will operate in other markets. Therefore, it is possible that the Issuer will invest in other markets in the future. These markets could be more volatile or sensitive, which could adversely affect the earnings, business prospects and financial position of the Issuer's, the Guarantor's and the JAB-Group's investments and ultimately of the Issuer, the Guarantor and the JAB-Group.

Liquidity Risk

The Issuer, the Guarantor and the JAB-Group mainly depend on the cash flow and returns derived from their respective investments in the form of dividends or other distributions. The Issuer or the Guarantor may be required to sell its respective investments in part or in whole in order to be in a position to pay interest and principal on the Notes. Investors should note that the proceeds of any such sale may need to be applied for mandatory prepayment of financial indebtedness other than the Notes. As a consequence, Noteholders may be structurally subordinated in such a scenario. Furthermore, any such sale of the Issuer's or the Guarantor's assets may be at a time where the sale proceeds from such sale are not sufficient to pay interest and principal on the Notes. It cannot be excluded that, at the time of redemption or maturity of the Notes, no dividend will be paid under the investments of the Issuer and the Guarantor, no sale of the respective investments is possible and no credit facility or other financing is available. If the Issuer and/or the Guarantor do not have sufficient liquid assets at the time of any payment, there is a significant risk that an investor in the Notes will lose all or some of its investment.

Global Financial Crisis and Eurozone Debt Crisis

In recent years, concerns about credit risk (including that of sovereigns) and the Eurozone crisis have intensified. The large sovereign debts and/or fiscal deficits of a number of European countries and the US have raised concerns regarding the financial condition of financial institutions, insurers and other corporates (i) located in these countries; (ii) that have direct or indirect exposure to these countries; and/or (iii) whose banks, counterparties, custodians, customers, service providers, sources of funding and/or suppliers have direct or indirect exposure to these countries. The default, or a significant decline in the credit rating, of one or more sovereigns or financial institutions could cause severe stress in the financial system generally and could adversely affect the markets in which the issuer operates and the businesses and economic condition and prospects of the Issuer's counterparties, customers, suppliers or creditors, directly or indirectly, in ways that are difficult to predict.

The impact of these conditions could be detrimental to the Issuer and the Guarantor and could adversely affect their earnings, financial position and profitability and those of their investment holdings as well as the Guarantor's credit rating and the ability of the Issuer and the Guarantor to meet their respective obligations under the Notes, the Guarantee and their respective debt obligations more generally.

Prospective investors should ensure that they have sufficient knowledge and awareness of the Eurozone crisis, global financial crisis and the economic situation and outlook as they consider necessary to enable them to make their own evaluation of the risks and merits of an investment in the Notes. In particular, prospective investors should take into account the considerable uncertainty as to how the Eurozone crisis, the global financial crisis and the wider economic situation will develop over time.

Referendum in the United Kingdom on its membership in the European Union

On 23 June 2016, the United Kingdom held a referendum on its membership in the European Union. A majority of the voters voted to exit the European Union ("**Brexit**"), and negotiations will commence to determine the future terms of the United Kingdom's relationship with the European Union, including the terms of trade between the United Kingdom and the European Union and the United Kingdom's access to the European Union markets. On 29 March 2017 the government of the United Kingdom has given official

notice of the United Kingdom's intention to leave the European Union and started the formal negotiation process.

There are significant uncertainties in relation to the terms and time frame within which such an exit would be feasible, and there are significant uncertainties as to what the impact would be on the fiscal, monetary and regulatory landscape in the United Kingdom, the conduct of cross-border business and export and import tariffs. There is uncertainty in relation to how, when and to what extent these developments would have an impact on the economy in the United Kingdom and the European Union, and on levels of investor activity and confidence, on global market performance and on exchange rates. There is also a risk that (i) the vote by the United Kingdom to leave could result in other member states re-considering their respective membership of the European Union or (ii) the euro as the single currency of the Eurozone could cease to exist. In addition, the Brexit and the subsequent expected negotiation between the United Kingdom and the European Union on its exit from the European Union could exacerbate financial market volatility. Any of these developments, or the perception that any of these developments are likely to occur, could have a material adverse effect on economic growth or business activity in the United Kingdom, the Eurozone, or the European Union, and could result in the relocation of businesses, cause business interruptions, lead to economic recession or depression, and impact the stability of the financial markets, availability of credit, political systems or financial institutions and the financial and monetary system. Any of these effects of Brexit, and others the JAB-Group cannot anticipate today, could have material adverse effects on the business, net assets, financial condition, cash flows and results of operations of the JAB-Group.

Financial counterparty risk

The Issuer and the Guarantor are exposed to financial institution counterparty risk and will continue to be exposed to the risk of loss if counterparty financial institutions fail or are otherwise unable to meet their obligations. Financial services institutions are inter-related as a result of trading, counterparty and other relationships. The Issuer and the Guarantor have exposure to many different industries and counterparties and routinely execute transactions with counterparties in the financial industry, financial intermediaries, brokers and dealers, commercial banks and investment banks for their own account. Defaults by, or even the perceived creditworthiness or questioning of, one or more financial services institutions or the financial services industry in general, have led and may again lead to market wide liquidity problems and could also lead to losses or defaults. The exact nature of the risks faced by the Issuer and Guarantor is difficult to predict and guard against in view of the severity of the global financial crisis and the fact that many of the related risks to the business are totally, or in part, outside the control of the Issuer and the Guarantor.

Investment risks

The Issuer, the Guarantor and the JAB-Group have made their investment decisions based on sound financial grounds in accordance with their investment principles and have kept their leverage at a level in line with the rating of the Notes and the rating of the Guarantor. There is no assurance, however, that any current or future investments, if made, will not have a negative adverse impact on the Issuer's, the Guarantor's or the JAB-Group's financial condition in the short and/or medium term and on the rating of the Notes or the corporate credit rating of the Guarantor.

The investment portfolio of the Issuer is continuously monitored and analysed by the Issuer through constant dialogue with the management or through direct participation through members in the management board or supervisory board of the companies in which the Issuer, the Guarantor and the JAB-Group are invested. However, the Issuer, the Guarantor and the JAB-Group may not be able to significantly influence the strategy of each of their investments at all times, e.g. as result of a minority participation of other investors or the Issuer, the Guarantor and the JAB-Group are not the sole investors in their respective ultimate investments (see structure chart in the section "*Description of the Issuer*"). Consequently, other investors may block any strategic decision in respect of the ultimate operating companies of the Issuer's, the Guarantor's or the JAB-Group's investment. No assurance can be given in relation to the future performance

of the Issuer's, the Guarantor's or the JAB-Group's investment portfolio nor can it be assured that the investment portfolio will not vary substantially from time to time or that the Issuer, the Guarantor or the JAB-Group, given their nature as investment companies, will not dispose in whole or in part of any of their respective investments.

No limitation on issuing further debt and guarantees or on investments

There is no restriction on the amount of debt or guarantees which the Issuer or the Guarantor may issue ranking equal with, or senior to, the obligations under or in connection with the Notes. Such issuance of further debt and guarantees may reduce the amount recoverable by the Noteholders upon insolvency or winding-up of the Issuer.

Additionally, neither the Issuer nor the Guarantor is subject to a restriction on investments in other entities, which could ultimately subordinate the Noteholders' claims to obligations of such entities towards their respective creditors.

Strategic risks

Failure to assess future market developments and/or overall negative economic development may adversely affect the businesses of the Issuer and the Guarantor. Corporate strategy risks can arise above all from the erroneous assessment of future market developments. Regulatory controls and changes in public policy may reduce the profitability of new or current business segments in which the Issuer is invested. Failure to evaluate potential acquisition targets, to integrate newly acquired businesses or to develop successfully new businesses may reduce the operating results of the Issuer. Significant unexpected costs for integration or development of businesses could also harm operating results.

Concentration risks

As of 31 December 2016, the direct and indirect principal investment holdings of the Issuer, the Guarantor and the JAB-Group in Reckitt Benckiser Group Plc., Coty, Inc. and Acorn Holdings B.V. represented 84.1 % of the gross asset value of the JAB-Group's assets. Other assets (such as JAB Luxury GmbH, JAB Coffee Holding B.V. and JAB Beech, Inc.) represented 15.9 % of the gross asset value of the JAB-Group's assets. Hence, there is a concentration risk within the portfolio whereby a loss affecting a single investment may have a significant negative impact on the overall performance of the Issuer, the Guarantor and the JAB-Group.

The results reported by the above-mentioned principal investment holdings will continue to significantly influence the Issuer's results and any failure to achieve the objectives, or a review of these objectives by those holdings as a consequence, inter alia, of the deterioration of the financial and economic condition and of global market conditions, may have a prejudicial effect on the results of operations, balance sheet and financial results, the activity, strategies and prospects of the Issuer, the Guarantor and the JAB-Group.

Currency exchange risks

Significant fluctuations in exchange rates affect the financial results of the Issuer, the Guarantor and the JAB-Group. A significant portion of the JAB-Group's investments and related operations are outside the Eurozone. Despite employing mechanisms to hedge against currency exchange risk, the JAB-Group cannot preclude that fluctuations in currencies of countries outside the Eurozone, especially in U.S. dollar and British pound sterling as of the date of this Prospectus, may materially affect the results of the JAB-Group, including the Issuer and the Guarantor.

Group structure risks

The obligations of the Issuer and the Guarantor incurred under the Notes or the Guarantee, respectively, are solely obligations of the Issuer and the Guarantor. Any other JAB-Group entity or company in which the Issuer is invested does not have any obligation, contingent or otherwise, to pay any amounts due under the Notes or the Guarantee or to make funds available to the Issuer or the Guarantor to pay any amounts due

under the Notes or the Guarantee. Furthermore, any claim of the Issuer in respect of its investments will rank behind any claims in respect of indebtedness incurred, and guarantees issued, by the company in which the Issuer is invested and claims of preference shareholders in such companies (if any). Therefore, the Notes and the Guarantee will effectively be subordinated to creditors and preference shareholders (if any) of the Issuer's direct and indirect investments.

Operational Risks

Insurance coverage

The JAB-Group seeks to cover foreseeable risks through insurance. Such insurance coverage comprises management and usual liability risks. However, these insurances may not fully cover the risks to which the JAB-Group is exposed. This may be the case for insurance covering legal and administrative claims as well as for insurance covering other risks. For certain risks, adequate insurance coverage may not be available on the market or may not be available with reasonable conditions. Consequently, any harm resulting from the materialisation of these risks could result in significant capital expenditures and expenses as well as liabilities, thereby harming business and operating results.

Key personnel risk

Success of the JAB-Group's business depends on the expertise and the dedication of the employees of the JAB-Group. The JAB-Group continuously strives to recruit qualified staff and to foster company loyalty. The risk of qualified employees leaving is particularly acute in key positions.

IT-system failures

The JAB-Group is, to some degree, dependent on IT-infrastructure and IT-systems. Any interruptions in, failures of or damage to its IT-infrastructure and IT-systems could lead to delays or interruptions in the business processes of the JAB-Group. In particular, the IT-systems of the JAB-Group may be vulnerable to security breaches and cyber-attacks from unauthorised persons outside and within the JAB-Group. The JAB-Group cannot guarantee that anticipated or recognised malfunctions can be avoided by appropriate preventive security measures in every case. The materialisation of one or more of these risks could have material adverse effects on the business of the JAB-Group.

Issuer's and Guarantor's financial information

The Issuer's and the Guarantor's historical consolidated financial and operational performances may not be indicative of their respective future operating and financial performances. There can be no assurance of the Issuer's or Guarantor's continued profitability for future periods.

The loan to value table for the JAB-Group provided in this Prospectus shows the valuation of the JAB-Group's investment portfolio, its net debt and its loan-to value ratio as of 31 December 2016 and as of 31 December 2015. The figures have been extracted from the audited consolidated financial statements of the JAB-Group.

Estimates and assumptions in the financial information of the Issuer and the Guarantor

The financial statements of the Issuer and Guarantor require the management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Key assumptions and estimates are described in the notes to the financial statements of the Issuer and the Guarantor incorporated by reference into this Prospectus. Management uses its judgement especially for the classification of the Guarantor as an investment entity according to IFRS 10, for selecting appropriate valuation techniques for the fair value determination of the JAB-Group's investments and redeemable shares and accounting for share based payment transactions.

If any of these estimates or assumptions are subsequently found to be incorrect, the valuation figures may also be incorrect and may have to be reconsidered. This could have material adverse effects on the JAB-Group's net assets, financial condition or results of operations.

Changes in tax law

The business of the JAB-Group is subject to the general tax frameworks in Luxembourg, the Netherlands and Germany. Its tax burden is dependent on various aspects of tax laws as well as their application and interpretation. Tax laws can be changed retroactively and their application/interpretation can be amended by the tax authorities and the courts. These possibilities can also increase the tax burden of the JAB-Group and could have a material adverse effect on the business, net assets, financial position, cash flow and income of the JAB-Group.

Rating risks

The Issuer's/Guarantor's/JAB-Group's ability to compete successfully in the market for funding depends on various factors, including financial stability as reflected by its operating results and credit ratings assigned by recognised credit agencies. As a result, a downgrade in such credit ratings may impact the Issuer's/Guarantor's/JAB-Group's ability to raise funding and this could adversely affect its business, financial condition and results of operations.

The current rating of the Guarantor is Baa1 with a stable outlook, as assigned by Moody's Investors Services Limited ("**Moody's**"), and BBB+ with a stable outlook, as assigned by Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. ("**S&P**").

Credit ratings are susceptible to change at any time, and in light of the above, the Guarantor's corporate credit rating could be downgraded at any time in accordance with the rating agencies criteria.

Please also refer to "*Credit ratings may not reflect all risks of investments in the Notes*" below.

Risk Factors related to the structure of the Notes

Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to a potential investor's overall portfolio. A potential investor should not invest in the Notes unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Fixed Rate Interest

The Notes will bear a fixed rate interest on their outstanding amount. Investors are exposed to the risk that the price of the Notes may fall because of changes in the market yield. While the nominal interest rate (i.e. the coupon) of the Notes is fixed during the life of the Notes, the market yield typically changes on a daily basis. As the market yield changes, the price of the Notes changes in the opposite direction. If the market yield increases, the price of the Notes typically falls. If the market yield falls, the price of the Note typically increases. Investors should be aware that movements of the market yield can adversely affect the price of the Notes and can lead to losses for the investors.

Investors should also be aware that the market yield has two components, namely the risk free rate and the credit spread. The credit spread is reflective of the yield that investors require in addition to the yield on a risk free investment of equal tenor as a compensation for the risks inherent in the Notes. The credit spread changes over time and can decrease as well as increase for a large number of different reasons. The market yield of the Notes can change due to changes of the credit spread, the risk free rate, or both.

In addition, investors are exposed to reinvestment risk with respect to proceeds from coupon payments. If the market yield declines, and if investors want to invest such payments in comparable transactions, investors will only be able to reinvest such proceeds in comparable transactions at the then prevailing lower market yields.

Re-investment Risk

The Issuer is entitled to terminate the Notes early upon occurrence of a Gross-up Event (as defined in the Terms and Conditions). If the occurrence of such event becomes likely, the market value of the Notes will probably be negatively affected and will generally not rise substantially above the price at which the Notes can be redeemed.

In the case of such early redemption an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Long-term securities

The Notes 2024 will be redeemed on 22 May 2024 and the Notes 2028 will be redeemed on 18 May 2028, unless they have been previously redeemed. The Issuer is under no obligation to redeem the Notes at any time before this date. Investors have no right to call for early redemption of the Notes except following a Change of Control or the occurrence of an Event of Default (each as further described in the Terms and Conditions). In the event that an investor calls the Notes early investors may suffer a lower than expected yield and may not be able to reinvest the funds on the same terms. In the case of an Event of Default, the redemption proceeds may be lower than the invested amount and be zero resulting in a total loss for investors.

Risks in connection with the application of the German Act on Issues of Debt Securities (Gesetz über Schuldverschreibungen aus Gesamtemissionen)

An investor is subject to the risk of being outvoted and of losing rights against the Issuer against his will where other investors agree to amendments of the Terms and Conditions by majority vote according to the

German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*) (the "**Bond Act**"). Noteholders shall pass resolutions by simple majority of the voting rights participating in the vote. According to Section 5(4) of the Bond Act, a qualified majority of at least 75% of the voting rights participating in the vote is required if material provisions of the Terms and Conditions are to be amended. Any meeting of Noteholders shall have a quorum requiring Noteholders representing at least 50% of the outstanding Notes by value (Section 15(3) of the Bond Act) to be present at the meeting. If the quorum is not achieved during the (first) meeting, the chairman may convene a second meeting. Generally, the second meeting does not require a quorum, subject to any resolutions which require a qualified majority, in which case Noteholders representing at least 25% of the outstanding and not suspended (*nicht ruhend*) Notes must be present at the relevant meeting. In the case of an appointment of a noteholders' representative for all investors, a particular investor may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other investors.

10% quorum in case of certain events of default

The Terms and Conditions provide that, in case of certain events of default, any notice declaring the Notes due and payable shall become effective only when the paying agent has received such default notices from Noteholders representing at least 10% of the aggregate principal amount of Notes then outstanding. In addition, under the Bond Act, even if a default notice had been given by a sufficient number of Noteholders, the Noteholders could rescind such acceleration by majority resolution within three months. A simple majority of votes would be sufficient for a resolution on the rescission of such acceleration but, in any case, more Noteholders would have to consent to a rescission than have delivered default notices.

Clearing System

The Notes will be represented by one or more Global Notes. Such Global Notes will be deposited with Clearstream Banking Aktiengesellschaft, Eschborn ("**Clearstream Frankfurt**" or "**Clearing System**"). Investors will not be entitled to receive definitive Notes. Clearstream Frankfurt will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Clearstream Frankfurt and the Issuer will discharge its payment obligations under the Notes by making payments to Clearstream Frankfurt or to its order for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Clearstream Frankfurt to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of beneficial interests in the Global Notes.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

European Initiative on Financial Transaction Tax

On 14 February 2013, the EU Commission adopted a proposal for a Council Directive (the "**Draft Directive**") on a common financial transaction tax ("**FTT**"). According to the Draft Directive, the FTT shall be implemented in eleven EU Member States (Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Spain, Slovakia and Slovenia; the "**Participating Member States**").

Pursuant to the original proposal under the Draft Directive, the FTT had a very broad scope and would apply to certain dealings in financial instruments (including secondary market transactions) where at least one

party is a financial institution, and either (i) at least one party is established or deemed to be established in a Participating Member State or (ii) the financial instruments are issued in a Participating Member State.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and either (i) at least one party is established or deemed to be established in a Participating Member State or (ii) the financial instruments are issued in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

According to latest press releases, certain EU Member States intend to decide on the implementation of the FTT and to present draft legislation early in 2017 (Estonia stated that it will not participate). According to latest public statements made by representatives of certain EU member states, the FTT may be levied for the first time in 2018.

Nevertheless, the FTT remains subject to negotiation between the Participating Member States and the scope of any such tax is uncertain. It may be altered prior to its adoption, the timing of which still remains unclear. Moreover, once any directive has been adopted, it will need to be implemented into the respective domestic laws of the Participating Member States and the domestic provisions implementing a directive might deviate from such directive. Finally, additional EU Member States may decide to participate.

Prospective holders of the Notes should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing for, purchasing, holding and disposing of the Notes.

Tax impact of the investment

An effective yield on the Notes may be diminished by the tax impact on an investment in the Notes. Payments of interest on the Notes, or profits realised by investors upon the sale or repayment of the Notes, may be subject to taxation in their respective home jurisdiction or in other jurisdictions in which it is required to pay taxes. The tax impact on investors generally in Germany, the Netherlands and Luxembourg is described in the section "*Taxation*"; however, the tax impact on individual investors may differ from the situation described for investors generally.

All investors are advised to contact their own tax advisers for advice on the tax impact of an investment in the Notes. Examples of a taxation risk that investors should consider together with their advisers include among others the risk of double taxation (in Germany and their home jurisdiction or another country, if applicable).

Change in tax law

Investors should be aware that tax regulations and their application by the relevant taxation authorities are subject to change, possibly with retrospective effect, and that this could negatively affect the value of the Notes. Any such change may cause the tax treatment of the Notes to change from the tax position at the time of purchase and may render the statements in this Prospectus concerning the relevant tax law and practice inaccurate or insufficient to cover the material tax considerations in respect of the Notes. It is not possible to predict the precise tax treatment which will apply at any given time and changes in tax law may give the Issuer the right to redeem the Notes.

Change of law in general

The Terms and Conditions of the Notes are based on German law in effect as of the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to German law or administrative practice after the date of issue of the Notes.

Risks related to the market generally

The secondary market generally

Although application has been made for the Notes to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading on the Euro MTF, the Notes may have no established trading market when issued, and one may never develop. Even if a market develops, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case to the extent the Notes are sensitive to interest rate, currency or market risks. The Notes may be very price volatile and as a consequence only a limited secondary market may develop (if any). Illiquidity may have a severely adverse effect on the market value of the Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in Euro. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than Euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Credit ratings may not reflect all risks and are subject to change

The ratings assigned to the Guarantor and the Notes, respectively, may not reflect the potential impact of all risks related to structure, market, additional factors discussed above and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Rating agencies may also change their methodologies for rating companies such as the Guarantor and securities with features similar to the Notes in the future. If the rating agencies were to change their practices in the future and the ratings of the Guarantor and the Notes, respectively, were to be subsequently lowered, this may have a negative impact on the trading price of the Notes.

The market value of the Notes could decrease if the creditworthiness of the Issuer, the Guarantor or the JAB-Group deteriorates

If the likelihood decreases that the Issuer and the Guarantor will be in a position to fully perform all obligations under the Notes and the Guarantee, as applicable, as they become due, for example, because of the materialisation of any of the risks regarding the JAB-Group, the Issuer and/or the Guarantor, the market value of the Notes may fall. In addition, even if the likelihood that the Issuer and the Guarantor will be in a position to fully perform all obligations under the Notes as they fall due does not decrease, market participants could nevertheless have a different perception. Furthermore, the market participants' estimation of the creditworthiness of corporate debtors in general or debtors operating in the same business as the JAB-Group could change for the worse. If any of these risks materialises, third parties may only be willing to purchase Notes for a lower price than before the materialisation of mentioned risk. Under these circumstances, the market value of the Notes may decrease.

Transaction costs

Transaction costs reduce the yield an investor will realise on the investment in the Notes. When Notes are purchased, several types of incidental costs (including transaction fees and commissions) are incurred and will have to be paid by the buyer in addition to the then prevailing market price. Similarly, when an investor sells any Notes, such incidental costs will reduce the actual price an investor will receive for each Note sold. These incidental costs may significantly reduce or even exclude the profit potential of an investment in the Notes. For instance, credit institutions as a rule charge their clients commissions which are either fixed minimum commissions or pro rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic Managers or brokers in foreign markets, investors must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of Notes (direct costs), investors must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

Margin lending

Margin lending, where it is permitted, can materially increase the risk to investors of incurring losses. If a loan is used to finance the purchase of the Notes and the Notes subsequently go into default, or if the trading price diminishes significantly, an investor not only has to face a potential loss on its investment, but it will also still have to repay the loan and pay interest thereon. This may significantly increase the risk of a loss. Investors should not assume that they will be able to repay the loan or pay interest thereon from the profits of a transaction. Instead, investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, or to repay the loan on demand, even if they face losses on such investment.

Market volatility and other factors

The trading market for debt securities may be volatile and may be adversely impacted by many events. The market for debt securities is influenced by economic and market conditions in Germany and, to varying degrees, by market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in Germany, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes. Investors also bear the risk that economic and market conditions will have any other adverse effect on the trading pattern and the market value of the Notes.

- (i) wenn der Zinsberechnungszeitraum der Feststellungsperiode entspricht, in die er fällt, oder kürzer als diese ist, die Anzahl von Tagen in dem Zinsberechnungszeitraum dividiert durch das Produkt aus (A) der Anzahl von Tagen in der betreffenden Feststellungsperiode und (B) der Anzahl der Feststellungsperioden, die üblicherweise in einem Jahr enden; und
- (ii) wenn der Zinsberechnungszeitraum länger als eine Feststellungsperiode ist, die Summe aus:
- (A) der Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum, die in die Feststellungsperiode fallen, in der der Zinsberechnungszeitraum beginnt, dividiert durch das Produkt aus (1) der Anzahl der Tage in der betreffenden Feststellungsperiode und (2) der Anzahl der Feststellungsperioden, die üblicherweise in einem Jahr enden; und
- (B) die Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum, die in

"Interest Payment Date" means 22 May in each year, commencing on 22 May 2018.

Sofern die Emittentin oder die Garantin zu einem solchen Einbehalt oder Abzug verpflichtet ist, wird die Emittentin bzw. die Garantin zusätzliche Beträge (die "**Zusätzlichen Beträge**") an die Anleihegläubiger zahlen, so dass die Anleihegläubiger die Beträge erhalten, die sie ohne den betreffenden Einbehalt oder Abzug erhalten hätten. Falls die Schuldverschreibungen zum Stichtag über ein Rating von mehr als einer Rating Agentur verfügen, von denen mindestens eines ein Investment Grade Rating ist, findet § 4(e)(v)(C) Anwendung.

"Ratingagentur" bezeichnet jeweils Moody's Investors Services Limited ("**Moody's**") oder Standard & Poor's Rating Services, eine Abteilung von The McGraw-Hill Companies Inc. ("**S&P**"), oder Fitch Ratings Ltd ("**Fitch**") oder eine jeweilige Nachfolgesellschaft.

Falls sich die von Moody's, S&P oder Fitch verwendeten Rating Kategorien gegenüber denen, die in § 4(e)(v) angegeben wurde, ändern sollten, wird die Emittentin diejenigen Rating Kategorien von Moody's, S&P bzw. Fitch bestimmen, die den früheren Rating Kategorien von Moody's, S&P bzw. Fitch möglichst nahekommen. § 4(e)(v) ist dann entsprechend auszulegen.

- (ii) Sämtliche Zahlungen stehen in allen Fällen unter dem Vorbehalt geltender steuerlicher und sonstiger gesetzlicher Vorschriften, Richtlinien und Verordnungen oder sonstiger Verträge, denen sich die Emittentin, die Garantin, die Hauptzahlstelle oder eine Zahlstelle unterworfen haben. Die Emittentin, die Garantin, die Hauptzahlstelle bzw. eine Zahlstelle ist nicht für irgendwelche Steuern oder Abgaben gleich welcher Art verantwortlich, die aufgrund solcher gesetzlichen Vorschriften, Richtlinien oder Verordnungen oder Verträgen auferlegt oder erhoben werden. Dies berührt jedoch nicht die Bestimmungen von § 6. Den Anleihegläubigern werden keine Kosten oder Gebühren in Bezug auf diese Zahlungen auferlegt.

Der Anleihegläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen.

Für diese Zwecke bezeichnet "**Zahltag**" einen Tag (außer einem Samstag oder Sonntag), (i) an dem das Clearingsystem und (ii) das Trans-European Automated Real-time Gross

Sofern die Emittentin oder die Garantin zu einem solchen Einbehalt oder Abzug verpflichtet ist, wird die Emittentin bzw. die Garantin zusätzliche Beträge (die "**Zusätzlichen Beträge**") an die Anleihegläubiger zahlen, so dass die Anleihegläubiger die Beträge erhalten, die sie ohne den betreffenden Einbehalt oder Abzug erhalten hätten. Solche Zusätzlichen Beträge sind jedoch nicht zahlbar wegen solcher Steuern in Bezug auf Schuldverschreibungen,

If the Issuer or the Guarantor is required to make such withholding or deduction, the Issuer or the Guarantor (as the case may be) will pay such additional amounts (the "**Additional Amounts**") to the Noteholders as the Noteholders would have received if no such withholding or deduction had been required, except that no such Additional Amounts will be payable for any such Taxes in respect of any Note,

Trend Information, Significant Change in the Financial or Trading Position

On 5 April 2017 JAB Group announced that it had entered into a definitive merger agreement with Panera Bread Company, a public listed company in the United States, ("**Panera**") under which Panera will be acquired in a transaction valued approx. USD 7.5 billion. Panera is one of the largest and most well-known bakery café chains in the United States with over 2,000 bakery-cafes across 46 states in the U.S. and in Canada. In 2016, Panera had system-wide sales across all stores including franchise stores of approx. USD 5 billion.

Panera will be acquired through JAB B.V., an investment vehicle of JAB Consumer Fund and the JAB Group. Entities affiliated with BDT Capital Partners and other existing equity partners of the JAB Group will also be investing alongside JAB BV. The acquisition will be partly financed by stand-alone debt at Panera (a \$3 billion already underwritten, standalone credit facility is in the process of being syndicated). Closing of the acquisition is expected to occur in the third quarter of 2017 and is subject to the approval of Panera shareholders and the satisfaction of customary closing conditions, including applicable regulatory

approvals. This add-on acquisition will become part of the JAB Beech group and is expected to be an anchor investment for the JAB Group retail coffee adjacencies.

The final capital structure for the Panera investment will be determined shortly before closing of the acquisition. The JAB Group currently estimates that it will make an equity contribution of approx. up to USD 1.7 billion for the acquisition which will be funded by cash and existing committed credit facilities of JAB Group. The contributions for the Panera transaction will lead to a temporarily increase of the loan-to-value ratio, however, the JAB Group expects to manage the ratio back to below 20% e.g. by considering divestment of other investments.

Other than described above, there have been no significant changes with regard to the financial position or the trading position of the Issuer since 31 December 2016.

TAXATION

The following comments are of a general nature and included herein solely for information purposes. They are based on the relevant laws currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive effect. These comments cannot replace legal or tax advice. No representation with respect to the consequences to any particular prospective holder of a Note is made hereby.

Prospective holders of a Note should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the Notes, including the application and effect of any federal, state or local taxes in each country in which they are resident or of which they are citizens and in all relevant jurisdictions.

Federal Republic of Germany

The following general description does not consider all aspects of income taxation in Germany that may be relevant to a Noteholder in the light of its particular circumstances and income tax situation. This general overview is based on German tax laws and regulations, all as currently in effect and all subject to change at any time, possibly with retroactive effect. Prospective Noteholders should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the Notes, including the application and effect of state, local, foreign and other tax laws and the possible effects of changes in the tax laws of Germany.

German tax residents holding Notes as private assets

Taxation of income from the Notes

If the Notes are held as private assets (*Privatvermögen*) by an individual investor whose residence or habitual abode is in Germany, payments of interest under the Notes are taxed as investment income (*Einkünfte aus Kapitalvermögen*) at a 25% flat tax (*Abgeltungsteuer*) (plus a 5.5% solidarity surcharge (*Solidaritätszuschlag*) thereon and, if applicable to the individual investor, church tax (*Kirchensteuer*)).

The same applies to capital gains from the sale or redemption of the Notes. The capital gain is generally determined as the difference between the proceeds from the sale or redemption of the Notes and the acquisition costs. Expenses directly and factually related (*unmittelbarer sachlicher Zusammenhang*) to the sale or redemption are taken into account in computing the taxable gain. Otherwise the deduction of related expenses for tax purposes is not permitted.

Where the Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted in Euro at the time of sale, and only the difference will then be computed in Euro.

The flat tax is generally collected by way of withholding (see subsequent paragraph – *Withholding tax*) and the tax withheld shall generally satisfy the individual investor's tax liability with respect to the Notes. If, however, no or not sufficient tax was withheld (e.g., in case there is no Domestic Paying Agent as defined below), the investor will have to include the income received with respect to the Notes in its annual income tax return. The flat tax will then be collected by way of tax assessment. The investor may also opt for inclusion of investment income in its income tax return if the aggregated amount of tax withheld on investment income during the year exceeded the investor's aggregated flat tax liability on investment income (e.g., because of available losses carried forward or foreign tax credits). If the investor's individual income tax rate which is applicable on all taxable income including the investment income is lower than 25% the investor may opt to be taxed at individual progressive rates with respect to its investment income.

Capital losses from the sale and redemption of the Notes held as private assets should generally be tax-recognised irrespective of the holding period of the Notes. According to the view of German tax authorities, losses suffered upon a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) (to the extent the waiver does not qualify as a hidden contribution) shall, in general, not be deductible for tax purposes. With respect to a bad debt loss a German lower fiscal court has recently confirmed the view of the German tax authorities in a non-final decision. Furthermore, capital losses might not be recognised by the German tax authorities if the Notes are sold or redeemed at a market price, which is lower than the transaction costs or if the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price or if no (or only de minimis) payments are made to the holders on the maturity or redemption date of the Notes. This view has however been challenged in 2014 by a final judgement of a German lower fiscal court. Any recognized capital losses may not be used to offset other income like employment or business income but may only be offset against investment income. Capital losses not utilised in one annual assessment period may be carried forward into assessment periods but may not be carried back into preceding assessment periods.

Individual investors are entitled to a saver's lump sum tax allowance (*Sparer-Pauschbetrag*) for investment income of EUR 801 per year (EUR 1,602 for jointly assessed investors). The saver's lump sum tax allowance is considered for purposes of the withholding tax (see subsequent paragraph – *Withholding tax*) if the investor has filed a withholding tax exemption request (*Freistellungsauftrag*) with the respective Domestic Paying Agent (as defined below). The deduction of related expenses for tax purposes is not permitted. This also applies if the investor opts to be taxed at individual progressive rates with respect to the investment income.

Withholding tax

If the Notes are kept or administered in a domestic securities deposit account with a German credit institution (*Kreditinstitut*) or financial services institution (*Finanzdienstleistungsinstitut*) (or with a German branch of a foreign credit or financial services institution), or with a German securities trading company (*Wertpapierhandelsunternehmen*) or with a German securities trading bank (*Wertpapierhandelsbank*) (each a "**Domestic Paying Agent**") which pays or credits the interest, a 25% withholding tax, plus a 5.5% solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375%, is levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which is provided for as a standard procedure unless the Noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

Capital gains from the sale or redemption of the Notes are also subject to the 25% withholding tax, plus a 5.5% solidarity surcharge thereon, if the Notes are kept or administered by a Domestic Paying Agent effecting the sale or redemption from the time of their acquisition. If the Notes were sold or redeemed after being transferred to a securities deposit account with a Domestic Paying Agent, 25% withholding tax (plus solidarity surcharge thereon) would be levied on 30% of the proceeds from the sale or the redemption, as the case may be, unless the investor or the previous depository bank was able and allowed to prove evidence for the investor's actual acquisition costs to the Domestic Paying Agent. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which is provided for as a standard procedure unless the Noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office, in which case the church tax is levied by way of tax assessment.

German tax resident investors holding the Notes as business assets

Taxation of income from the Notes

If the Notes are held as business assets (*Betriebsvermögen*) by an individual or corporate investor which is tax resident in Germany (i.e., a corporation with its statutory seat or place of management in Germany), interest income and capital gains from the Notes are subject to personal income tax at individual progressive rates or corporate income tax (plus a 5.5% solidarity surcharge thereon and church tax, if applicable) and, in general, trade tax. The effective trade tax rate depends on the applicable trade tax factor (*Gewerbsteuer-Hebesatz*) of the relevant municipality where the business is located. In case of individual investors the trade tax may, however, be partially or fully creditable against the investor's personal income tax liability depending on the applicable trade tax factor and the investor's particular circumstances. Capital losses from the disposal or redemption of the Notes should generally be tax-recognised and may generally be offset against other income.

Withholding tax

If the Notes are kept or administered by a Domestic Paying Agent which pays or credits the interest, a 25% withholding tax, plus a 5.5% solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375% is generally levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which is provided for as a standard procedure unless the Noteholder has filed a blocking notice with the German Federal Central Tax Office, in which case the church tax is levied by way of tax assessment.

No withholding is generally required on capital gains from the disposal or redemption of the Notes which is derived by German resident corporate investors and, upon application, by individual investors holding the Notes as assets of a German business, subject to certain requirements.

Any capital losses incurred from the disposal or redemption of the Notes will not be taken into account for withholding tax purposes. If withholding tax is levied, the withholding tax does not satisfy the investor's personal or corporate income tax liability with respect to the Notes. The income from the Notes will have to be included in the investor's personal or corporate income tax return. Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

Non-German tax resident investors

Income derived from the Notes by Noteholders who are not tax resident in Germany is in general not subject to German income taxation, and no withholding tax shall be withheld, unless (i) the Notes are held as business assets of a German permanent establishment of the investor or by a permanent German representative of the investor, (ii) the income derived from the Notes otherwise constitutes German source income (such as income from the letting and leasing of certain property located in Germany) or (iii) the income is paid by a Domestic Paying Agent against presentation of the Notes or interest coupons (so-called over-the-counter transaction, *Tafelgeschäfte*).

If the income derived from the Notes is subject to German taxation according to (i) through (iii) above, the income is subject to German income taxation and withholding tax similar to that described above for German tax residents. Under certain circumstances, foreign investors may benefit from tax reductions or tax exemptions under applicable double taxation treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

Inheritance tax and gift tax

The transfer of the Notes to another person by way of gift or inheritance is subject to German gift or inheritance tax, respectively, if *inter alia*

- (i) the testator, the donor, the heir, the donee or any other acquirer had their residence, habitual abode or, in case of a corporation, association (*Personenvereinigung*) or estate (*Vermögensmasse*), has its seat or place of management in Germany at the time of the transfer of property,
- (ii) except as provided under (i), the testator's or donor's Notes belong to a business asset attributable to a permanent establishment or a permanent representative in Germany.

Special regulations may apply to certain German expatriates.

Prospective investors are urged to consult with their tax adviser to determine the particular inheritance or gift tax consequences in light of their particular circumstances.

Other taxes

The purchase, sale or other disposal of the Notes does not, at present, give rise to capital transfer tax, value added tax, stamp duties or similar taxes or charges in Germany. However, under certain circumstances entrepreneurs may choose liability to value added tax with regard to the sales of the Notes to other entrepreneurs which would otherwise be tax exempt. Net wealth tax (*Vermögensteuer*) is, at present, not levied in Germany.

The Netherlands

Introduction

The following summary does not purport to be a comprehensive description of all Netherlands tax considerations that could be relevant to holders of the Notes. This summary is intended for general information only. Each prospective holder should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes. This summary is based on Netherlands tax legislation and published case law in force as of the date of this Prospectus. It does not take into account any developments or amendments thereof after that date, whether or not such developments or amendments have retroactive effect. For the purposes of this section, "The Netherlands" shall mean that part of the Kingdom of the Netherlands that is in Europe.

Scope

Regardless of whether or not a holder of Notes is, or is treated as being, a resident of the Netherlands, with the exception of the section on withholding tax below, this summary does not address the Netherlands tax consequences for such a holder:

- (i) having a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the Issuer and holders of Notes of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (statutory defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- (ii) who is a private individual and who may be taxed in box 1 for the purposes of Netherlands income tax (*inkomstenbelasting*) as an entrepreneur (*ondernemer*) having an enterprise (*onderneming*) to which the Notes are attributable, or who may otherwise be taxed in box 1 with respect to benefits derived from the Notes;

- (iii) who is a person to whom the Notes and the income from the Notes are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of The Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) and the Netherlands Gift and Inheritance Tax Act 1956 (*Successiewet 1956*);
- (iv) which is a corporate entity and a taxpayer for the purposes of Netherlands corporate income tax (*vennootschapsbelasting*), having a participation (*deelneming*) in the Issuer (such a participation is generally present in the case of an interest of at least 5% of the Issuer's nominal paid-in capital);
- (v) which is a corporate entity and an exempt investment institution (*vrijgestelde beleggingsinstelling*) or investment institution (*beleggingsinstelling*) for the purposes of Netherlands corporate income tax, a pension fund, or otherwise not a taxpayer or exempt for tax purposes;
- (vi) corporate entities which are a resident of Aruba, Curacao or Sint Maarten that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Sint Eustatius or Saba, to which permanent establishment or permanent representative the Notes are attributable; or
- (vii) which is not considered the beneficial owner (*uiteindelijk gerechtigde*) of the Notes and/or the benefits derived from the Notes.

Withholding tax

All payments made by the Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, provided that the Notes do not in fact function as equity of the Issuer within the meaning of article 10, paragraph 1, under d of the Netherlands Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*).

Income tax

Resident holders: A holder who is a private individual and a resident, or treated as being a resident of the Netherlands for the purposes of Netherlands income tax, must record Notes as assets that are held in box 3. Taxable income with regard to the Notes is then determined on the basis of a certain deemed return on the holder's yield basis (*rendementsgrondslag*) at the beginning of the calendar year insofar the yield basis exceeds a €25,000 threshold (*heffingvrij vermogen*), rather than on the basis of income actually received or gains actually realised. Such yield basis is determined as the fair market value of certain qualifying assets held by the holder of the Notes, less the fair market value of certain qualifying liabilities at the beginning of the calendar year. The fair market value of the Notes will be included as an asset in the holder's yield basis. The holder's yield basis is allocated to up to three brackets for which different deemed returns apply. The first bracket includes amounts up to and including €75,000, which amount will be split into a 67% low-return part and a 33% high-return part. The second bracket includes amounts in excess of €75,000 and up to and including €975,000, which amount will be split into a 21% low-return part and a 79% high-return part. The third bracket includes amounts in excess of €975,000, which will be considered high-return in full. For 2017 the deemed return on the low-return parts is 1.63% and on the high-return parts is 5.39%. The deemed return percentages will be reassessed every year. The deemed return on the holder's yield basis is taxed at a rate of 30%.

Non-resident holders: A holder who is a private individual and neither a resident, nor treated as being a resident, of The Netherlands for the purposes of Netherlands income tax, will not be subject to such tax in respect of benefits derived from the Notes, unless such holder is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise which is effectively managed in The Netherlands, to which enterprise the Notes are attributable.

Corporate income tax

Resident holders: A holder which is a corporate entity and, for the purposes of Netherlands corporate income tax, a resident, or treated as being a resident, of The Netherlands, is taxed in respect of benefits derived from the Notes at rates of up to 25%.

Non-resident holders: A holder which is a corporate entity and, for the purposes of Netherlands corporate income tax, is neither a resident, nor treated as being a resident, of The Netherlands, will not be subject to corporate income tax, unless such holder has an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in The Netherlands, a Netherlands Enterprise (*Nederlandse onderneming*), to which Netherlands Enterprise the Notes are attributable, or such holder is (other than by way of securities) entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, which is effectively managed in The Netherlands and to which enterprise the Notes are attributable. Such holder is taxed in respect of benefits derived from the Notes at rates of up to 25%.

Gift and inheritance tax

Resident holders: Netherlands gift tax or inheritance tax (*schenk- of erfbelasting*) will arise in respect of an acquisition (or deemed acquisition) of Notes by way of a gift by, or on the death of, a holder of Notes who is a resident, or treated as being a resident, of The Netherlands for the purposes of Netherlands gift and inheritance tax.

Non-resident holders: No Netherlands gift tax or inheritance tax will arise in respect of an acquisition (or deemed acquisition) of Notes by way of a gift by, or on the death of, a holder of Notes who is neither a resident, nor treated as being a resident, of The Netherlands for the purposes of Netherlands gift and inheritance tax.

Other taxes

No Netherlands value added tax (*omzetbelasting*) will arise in respect of any payment in consideration for the issue of Notes, with respect to any cash settlement of Notes or with respect to the delivery of Notes. Furthermore, no Netherlands registration tax, capital tax, transfer tax or stamp duty (nor any other similar tax or duty) will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of Notes.

Residency

A holder will not become a resident, or a deemed resident, of The Netherlands for Netherlands tax purposes by reason only of holding the Notes.

Luxembourg

The statements herein regarding withholding taxes in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Prospectus and are subject to any changes in law. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. Each prospective holder or beneficial owner of the Notes should consult its tax adviser as to the Luxembourg tax consequences of the ownership and disposition of the Notes.

Withholding tax

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to or to the benefit of Luxembourg resident individual Noteholders, there is no Luxembourg withholding tax on

payments of interest (including accrued but unpaid interest) to Noteholders. There is also no Luxembourg withholding tax, with the possible exception of payments made to or to the benefit of Luxembourg resident individual beneficial owners of the Notes, upon repayment of principal in case of reimbursement, redemption, repurchase or exchange of the Notes to Noteholders.

Pursuant to the Luxembourg law dated 23 December 2005, as amended (the "**Law**"), interest payments made by Luxembourg paying agents (within the meaning of the Law) to Luxembourg resident individual beneficial owners are subject to a 20% withholding tax. Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

Taxation of Luxembourg non-residents

Noteholders who are non-residents of Luxembourg and who do not have a permanent establishment, a permanent representative or a fixed base of business in Luxembourg with which the holding of the Notes is connected, will not be subject to taxes (income taxes and net wealth tax) or duties in Luxembourg with respect to payments of principal or interest (including accrued but unpaid interest), payments received upon redemption, repurchase or exchange of the Notes or capital gains realised upon disposal or repayment of the Notes.

Prospective Noteholders who are in any doubt as to their position should consult their own tax advisers.

THE FOREGOING SUMMARY DOES NOT DISCUSS ALL TAXATION ASPECTS IN THE FEDERAL REPUBLIC OF GERMANY, LUXEMBOURG AND THE NETHERLANDS THAT MAY BE RELEVANT TO A PARTICULAR NOTEHOLDER IN LIGHT OF ITS PARTICULAR CIRCUMSTANCES AND INCOME TAX SITUATION. PROSPECTIVE NOTEHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISER AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF PURCHASING, HOLDING AND DISPOSING OF NOTES, INCLUDING THE APPLICATION AND EFFECT OF STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN THE RESPECTIVE TAX LAWS.

SUBSCRIPTION AND SALE

General

Pursuant to a subscription agreement dated 15 May 2017 (the "**Subscription Agreement**") among the Issuer, the Guarantor and the Managers, the Issuer has agreed to sell to the Managers, and the Managers have agreed, subject to certain customary closing conditions, to purchase, the Notes on 18 May 2017. The Issuer has furthermore agreed to pay certain commissions to the Managers and to reimburse the Managers for certain expenses incurred in connection with the issue of the Notes. Commissions may be payable by the Managers to certain third party intermediaries in connection with the initial sale and distribution of the Notes.

The Subscription Agreement provides that the Managers under certain circumstances will be entitled to terminate the Subscription Agreement. In such event, no Notes will be delivered to investors. Furthermore, the Issuer has agreed to indemnify the Managers against certain liabilities in connection with the offer and sale of the Notes.

The Managers or their respective affiliates, including parent companies, engage, and may in the future engage, in investment banking, commercial banking (including the provision of loan facilities and, in particular, the repayment of the Syndicated Loan) and other related transactions with the Issuer and the Guarantor and their affiliates and may perform services for them, for which the Managers or their affiliates have received or will receive customary fees and commissions, in each case in the ordinary course of business.

There are no interests of natural and legal persons involved in the issue, including conflicting ones, that are material to the issue.

A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.
10. **Websites:** For the avoidance of doubt the content of any website referred to in this Prospectus does not form part of this Prospectus.

⁵ Moody's defines "Baa1" as follows: Issuers or issues rated Baa represent average creditworthiness relative to other domestic issuers. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category.

⁶ S&P defines "BBB+" as follows: An obligor rated 'BBB' has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or (-) sign to show relative standing within the major rating categories.
