# Report of the Board of Directors

Management of JAB Holdings B.V. (the "Company") hereby presents its interim condensed financial statements as at and for the six months period ended 30 June 2020.

#### General information

The objectives of the Company are to act as a holding and finance company. The Company's sole shareholder is JAB Investments S.à r.l., which is domiciled in Luxembourg ("JAB Investments"). Ultimate parent company is Agnaten SE, Austria.

The Company is focused on long-term investments in companies with premium brands, attractive growth and strong cash flow. The Board of Directors monitors the return on capital and the value enhancement of the Company's investment portfolio.

#### **Impacts of Covid-19**

Since the end of the last annual reporting period, the spread of Covid-19 has evolved into a pandemic and has resulted in a sharp decline in global economic activities, at least temporarily. It has negatively impacted global financial markets and global economic growth expectations. As of the end of the interim reporting period the economic activities have recovered to some extent. However, the impacts of Covid-19 are not all apparent yet and the position will remain fluid until the length and extent of the crisis become clearer. These impacts depend on a number of factors, such as the duration and spread as well as the timing, suitability and effectiveness of measures imposed by authorities, the availability of resources, including human, material, infrastructure and financial required to implement effective response to the pandemic situation as well as the level of civil compliance with such measures.

The Covid-19 pandemic and the related impact on financial markets also adversely affected the fair value of JAB Group's investments. In the reporting period, a change in fair value of €-4,674.6m (six months ended 30 June 2019: gain €5,574.4m) of investments in subsidiaries and other investments was recognised. The change in fair value includes the impacts of the Covid-19 pandemic. Depending on the further evolvement of the Covid-19 pandemic, the direct and indirect investments' fair values might be further affected.

JAB Group has a key focus on assessment of the impact of the Covid-19 pandemic on its investments and their performance. It monitors and follows closely the information released from governments, regulatory bodies and health organisations in the countries in which JAB Group and its investments operate. Evidently not all industries or companies are and will be impacted to the same degree. While majority of the investment portfolio of JAB Group is focused on business sectors that JAB Group considers to be resilient and non-discretionary, certain other investments, primarily in the retail restaurant, cosmetic and luxury sectors, are negatively affected.

#### Notes to the Interim Condensed financial statements

#### 1. General information

JAB Holdings B.V. (the "Company") is a company domiciled in the Netherlands and is registered under number 34233247 in the Trade Register. The address of the Company's registered office is Piet Heinkade 55, 1019 GM Amsterdam, the Netherlands. The objectives of the Company are to act as a holding and finance company.

The Company's sole shareholder is JAB Investments S.à r.l. ("JAB Investments"), domiciled in Luxembourg. Ultimate parent is Agnaten SE, Austria.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements for the year ended 31 December 2019, as they provide an update of previously reported information. They do not include all of the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.

Since the end of the last annual reporting period, the spread of Covid-19 has evolved into a pandemic and has resulted in a sharp decline in global economic activities, at least temporarily. It has negatively impacted global financial markets and global economic growth expectations. As of the end of the interim reporting period the economic activities have recovered to some extent. However, the impacts of Covid-19 are not all apparent yet and the position will remain fluid until the length and extent of the crisis become clearer. These impacts depend on a number of factors, such as the duration and spread as well as the timing, suitability and effectiveness of measures imposed by authorities, the availability of resources, including human, material, infrastructure and financial required to implement effective response to the pandemic situation as well as the level of civil compliance with such measures.

The Covid-19 pandemic and the related impact on financial markets also adversely affected the fair value of JAB Group's investments. In the reporting period, a change in fair value of €-4,674.6m (six months ended 30 June 2019: gain €5,574.4m) of investments in subsidiaries and other investments was recognised. The change in fair value includes the impacts of the Covid-19 pandemic. Depending on the further evolvement of the Covid-19 pandemic, the direct and indirect investments' fair values might be further affected.

JAB Group has a key focus on assessment of the impact of the Covid-19 pandemic on its investments and their performance. It monitors and follows closely the information released from governments, regulatory bodies and health organisations in the countries in which JAB Group and its investments operate. Evidently not all industries or companies are and will be impacted to the same degree. While majority of the investment portfolio of JAB Group is focused on business sectors that JAB Group considers to be resilient and non-discretionary, certain other investments, primarily in the retail restaurant, cosmetic and luxury sectors, are negatively affected.

#### 2. Statement of compliance

The interim condensed financial statements for the six months period ended 30 June 2020 have been prepared applying the same accounting policies as are applied in the Company's annual financial statements.

The Company's annual financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS").

The interim financial statements for the six months period ended 30 June 2020 have been prepared in accordance with IAS 34 – Interim Financial Reporting as adopted by the European Union.

#### 3. Significant accounting policies

The interim condensed financial statements require the management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates, especially in relation to the impact of the Covid-19 pandemic, and the results reported should not be regarded as necessarily indicative of results that may be expected for the entire year.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods. The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements as at and for the year ended 31 December 2019.

The Company is not subject to seasonal fluctuations.

The interim condensed financial statements are presented in thousands of Euros (EUR), which is the functional currency of the Company.

#### 3.1 Changes in accounting policies and disclosures

Except as described below, the accounting policies applied by the Company for the Interim Condensed Financial Statements are consistent with those described in the financial statements 2019, as are the methods of computation.

#### New and amended standards adopted by the Company

A number of new standards issued by the International Accounting Standards Board (IASB) are effective for the first time for an accounting period that begins on 1 January 2020. Their adoption has not had any significant impact on the Company's financial statements but may impact the accounting for future transactions or arrangements.

#### New standards and interpretations not yet adopted by the Company

A number of new standards are effective for annual periods beginning after 1 January 2020 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these interim condensed financial statements. None of these is expected to have a significant effect on the financial statements of the Company.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

#### Financial instruments in Level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the group is the current bid price.

As of 30 June 2020, financial instruments included in Level 1 comprise shares in Keurig Dr Pepper Inc. and JDE Peet's N.V. (31 December 2019: no financial instruments included in Level 1).

#### Financial instruments in Level 2

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Financial instruments included in Level 2 comprise shares in JAB Cosmetics B.V. and foreign exchange contracts (31 December 2019: foreign exchange contracts and interest rate swaps). Specific valuation techniques used to value these financial instruments include

- JAB Cosmetics B.V. holds 100% of Cottage Holdco B.V. which is direct shareholder in Coty Inc. Coty Inc. is a listed company (New York Stock Exchange). JAB Cosmetics B.V.'s fair value was determined on the basis of its indirect investment in Coty Inc.
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves;
- Quoted market prices or dealer quotes for outstanding long-term notes and similar instruments:
- The fair value of forward exchange contracts is determined using forward exchange rates at the reporting date.

#### Financial instruments in Level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3. Financial instruments included in Level 3 comprise shares in JAB Forest B.V., Pret Panera I G.P., Pret Panera III G.P., KK G.P., JAB Holding Company Ltda., Petcare G.P. and Labelux Group GmbH in Liqu. (31 December 2019: JAB Forest B.V., JAB Cosmetics B.V., Pret Panera I G.P., Pret Panera III G.P., KK G.P., Petcare G.P., Labelux Group GmbH in Liqu. and corporate debt securities in Acorn Holdings B.V.).

The table below analyses financial instruments carried at fair value by valuation technique. It does not include fair value information for financial assets and financial liabilities not measured at fair value. The issued long-term notes have a carrying amount of €7,890.1m (31 December 2019: €6,799.5m), the fair value is €8,224.0m (31 December 2019: €7,180.3m) based on dealer-quotes (Level 2). For all other financial assets and liabilities, the carrying amounts are a reasonable approximate of fair values.

The Company is a defendant in stockholder class action and derivative lawsuit along with two other JAB Group Companies (JAB Cosmetics B.V., Cottage Holdco B.V.). JAB Holding Company S.à r.l., which was previously a defendant, has been dismissed as a defendant. The complaint alleges, among other things, that the defendants have acted in concert to control Coty Inc. The plaintiffs, stockholders of Coty Inc., allege that controlling stockholders of Coty Inc. breached fiduciary duties to the minority stockholders in connection with a partial tender offer for shares of Coty Inc. Plaintiffs contend that the tender offer injured the stockholders who tendered because it was purportedly coercive and unfairly priced. Plaintiffs also contend that the non-tendering stockholders were injured because the JAB Group gained mathematical control of Coty Inc. as a result of the tender offer, thereby depriving the minority stockholders of a control premium. The case is still at its early stages with discovery just commencing. A trial schedule has not yet been set.

#### 25. Subsequent events

The Board of Directors of the Company is responsible for the preparation and presentation of these Interim Condensed Financial Statements in accordance with IAS 34 'Interim Financial Reporting' as adopted by the European Union. Our responsibility is to express a conclusion on these Interim Condensed Financial Statements based on our review.

#### Scope

We conducted our review in accordance with Dutch law including standard 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Dutch Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Condensed Financial Statements as at and for the six months period ended 30 June 2020 are not prepared, in all material respects, in accordance with IAS 34 'Interim Financial Reporting' as adopted by the European Union.
