together with accrued interest for 21 days (from 25 May 2016 to 15 June 2016)

JAB Holdings B.V., Oudeweg 147, 2031 CC Haarlem, The Netherlands (the "**Issuer**") will issue EUR 150,000,000 1.75 per cent. Notes due 2023 (the "**New Notes**") in the denomination of EUR 100,000 each on 15 June 2016 (the "**Issue Date**").

The New Notes will constitute an increase (*Aufstockung*) of the EUR 750,000,000 1.75 per cent. Notes due 2023 issued on 25 May 2016 (the "**Original Notes**" and, together with the New Notes, the "**Notes**"). The New Notes will have the same terms as the Original Notes in all respects (except for the date of issue and the issue price) and will be consolidated and form a single series (*Gesamtemission*) with the Original Notes.

The New Notes have the benefit of an unconditional and irrevocable guarantee (the "**Guarantee**") of JAB Holding Company S.à r.l. (the "**Guarantor**"). The New Notes and the Guarantee will be governed by the laws of the Federal Republic of Germany ("**Germany**").

The Issuer and the Guarantor are part of a group of holding companies (the "**JAB-Group**") which invest in a portfolio of operating companies as further described under "*Description of the Issuer*", "*Description of the Guarantor*" and "*Description of the JAB-Group*".

The New Notes will bear interest on their outstanding amount from and including 25 May 2016 (the "**Interest Commencement Date**") to but excluding the Maturity Date (as defined below) at a rate of 1.75 per cent. per annum, payable annually in arrear on 25 May of each year (each such date, an "**Interest Payment Date**"), commencing on 25 May 2017.

The New Notes will be redeemed at their specified denomination on 25 May 2023 (the "**Maturity Date**"). Under certain circumstances described in Condition 4 of the terms and conditions of the New Notes (the "**Terms and Conditions**"), the New Notes may be subject to early redemption.

This prospectus (the "**Prospectus**") constitutes a prospectus for the purpose of the Luxembourg Law of 10 July 2005 on Prospectuses for Securities, as amended. Application has been made for admission of the New Notes to the official list (the "**Official List**") of the Luxembourg Stock Exchange and for trading on the Euro MTF market ("**Euro MTF**") operated by the Luxembourg Stock Exchange, which is a multilateral trading facility for the purposes of the Market and the Financial Instruments Directive 2004/39/EC, and therefore a non-EU-regulated market.

The New Notes will initially be represented by a temporary global note in bearer form (the "**Temporary Global Note**"). Interests in the Temporary Global Note will be exchangeable, in whole or in part, for interest in a permanent global note (the "**Permanent Global Note**" and, together with the Temporary Global Note each a "**Global Note**") on or after the date 40 days after the later of the commencement of the offering and the Issue Date (the "**Exchange Date**"), upon certification as to non-U.S. beneficial ownership. The Global Notes will be deposited prior to the Issue Date with Clearstream Banking Aktiengesellschaft, Eschborn ("**Clearstream Frankfurt**").

The distribution of this Prospectus and the offering or sale of the New Notes and the Guarantee in certain jurisdictions may be restricted by law. This Prospectus identifies in general terms certain information that a prospective investor should consider prior to making an investment in the New Notes. However, a prospective investor should conduct its own thorough analysis (including its own accounting, legal and tax analysis) prior to deciding whether to invest in any New Notes as any evaluation of the suitability for an investor of an investment in the New Notes depends upon a prospective investor's particular financial and other circumstances, as well as on the specific terms of the New Notes and, if it does not have experience in financial, business and

investment matters sufficient to permit it to make such a determination, it should consult its financial adviser prior to deciding to make an investment on the suitability of the New Notes.

IN CONNECTION WITH THE ISSUE OF THE NEW NOTES, DEUTSCHE BANK AG (THE "**STABILISING MANAGER**") (OR A PERSON ACTING ON BEHALF OF ANY STABILISING MANAGER) MAY OVER-ALLOT NEW NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NEW NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILISING MANAGER (OR A PERSON ACTING ON BEHALF OF A STABILISING MANAGER) WILL UNDERTAKE STABILISATION ACTION. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NEW NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 CALENDAR DAYS AFTER THE ISSUE DATE OF THE NEW NOTES AND 60 CALENDAR DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NEW NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER (OR A PERSON ACTING ON BEHALF OF ANY STABILISING MANAGER) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

## **RISK FACTORS**

*Each of the Issuer and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under the New Notes or the Guarantee, respectively. All of these factors are contingencies which may or may not occur and each of the Issuer and the Guarantor is not in a position to express a view on the likelihood of any such contingency occurring.*

*Factors which the Issuer or the Guarantor believes may be material for the purpose of assessing the market risks associated with the New Notes or the Guarantee are also described below.*

*Each of the Issuer and the Guarantor believes that the factors described below represent the principal risks inherent in investing in the New Notes as guaranteed by the Guarantee. However, either the Issuer or the Guarantor may be unable to pay interest, principal or other amounts on or in connection with the New Notes or the Guarantee, respectively, for other reasons and neither the Issuer nor the Guarantor represents that the statements below regarding the risks of holding any New Notes as guaranteed by the Guarantee are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision. Prospective investors should note that the risks relating to the Issuer and the Guarantor, their respective industries and the New Notes summarised in this section are the risks that the Issuer and the Guarantor believe to be the most essential to an assessment by a prospective investor of whether to consider an investment in the New Notes. However, as these risks relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in this section, but also, among other things, should consult their financial, legal and tax advisers.*

### **Risk Factors that may affect the Issuer/Guarantor's ability to fulfil its obligations under the New Notes or the Guarantee, respectively**

The Issuer, the Guarantor and the JAB-Group are exposed to certain risk factors affecting their respective abilities to fulfil their obligations under the New Notes or the Guarantee, as the case may be. These risk factors relate to the business and operations of the Issuer, the Guarantor and the JAB-Group and include matters such as a decrease in the value of the JAB-Group's investments, a limited ability to raise capital and a failure to integrate newly acquired businesses. The following is a summary of these risk factors:

#### ***Market risks***

##### ***Exposure to prices of investment assets***

The Guarantor, as holding company, holds 100% of the Issuer via an intermediate holding company, JAB Investments S.à r.l. The Issuer is an investment company. The composition of the Issuer's investment portfolio may vary substantially from time to time (see the structure chart of the JAB-Group and its investments in the section "*Description of the Issuer*"). The market value of the portfolio directly and indirectly held by the Issuer and the Guarantor, respectively, is subject to the market prices of the assets comprising the portfolio. A decrease of such market prices may lead to a significantly lower market value of the portfolio, which may affect the creditworthiness of the Issuer, the Guarantor and/or the JAB-Group.

The Issuer holds, directly and indirectly, equity interests in both listed and unlisted companies. The value of investments in listed companies is based on the market prices of the listed companies. The value of investments in unlisted companies is determined by employing various methods, including valuations based on multiples for comparable listed entities and discounted cash flows analyses. Accordingly, changing market prices and conditions may adversely affect the value of the Issuer's assets. A sustained fall in equity and/or bond markets or changes in interest or exchange rates may reduce the Issuer's earnings significantly and for a significant period. The Issuer's expenses, e.g. interests expenses, may not decrease at the same rate

as investment markets could fall and if the Issuer is not able to manage its expenses effectively, the Issuer could experience significant and sustained losses as a consequence.

#### *Commercial risks*

Maintaining long-term ownership in holdings and a flow of investments in, and divestments from, new investment activities involves commercial risks, such as high exposure to certain industries or individual holdings, changing market conditions limiting attractive investment opportunities and barriers to exit from certain holdings at the chosen time.

#### *Dependency on investment revenues*

The Issuer is an investment company without any significant operating business and the Issuer's financial condition therefore depends upon the performance of its investment activities. The Issuer depends primarily on the receipt of funds, distributions and dividends from its investments. The ability of the companies in which the Issuer is invested to make such payments depends on the companies' economic performance and financial condition. No assurance can be given that the Issuer will receive adequate funding to maintain its financial condition. These factors could materially and adversely affect the Issuer's ability to make payments on the New Notes.

The same is true in respect of the Guarantor which depends solely on the economic performance and financial condition of the Issuer as its sole material investment.

#### *Cyclical business at the level of the operating companies*

The complex global economic situation affects the earnings of the investment holdings of the Issuer. In general, the sectors in which the investment holdings operate have historically been subject to highly cyclical demand and tend to reflect the overall performance of the economy, in certain cases even amplifying the effects of economic trends. Given the difficulty of predicting the magnitude and duration of economic cycles, there can be no assurances as to future trends in the demand for, or supply of, products and services sold by them in any of the markets in which they operate. Moreover, the markets in which the Issuer's investment holdings operate are exposed to variations in energy and raw material prices or a possible reduction in infrastructure investments. Accordingly, particular circumstances could have a material adverse effect on the earnings, business prospects and financial position of the Issuer's investment holdings.

#### *Local market conditions*

The Issuer's and the Guarantor's earnings and financial positions and those of their respective investment holdings are particularly influenced by the general state of the economy in the countries in which they operate and by the variables which affect performance, including increases or decreases in gross national product, access to credit, the level of consumer and business confidence, the cost of raw materials and the rate of unemployment.

#### *Strong competition*

The Issuer operates via its investment holdings in businesses which are intensely competitive. The Issuer and its holding companies compete on the basis of a number of factors, including brand recognition, fund performance, transaction execution, products and services, innovation, reputation and price. Many of their competitors have significant financial resources, experience and marketing strength, and may have the ability to offer a wide range of products and services and to introduce innovative products or services, which may enhance their competitive position.

#### *Sector risks*

The Issuer operates in consumer goods markets and intends to continue to do so in the future. Although these markets are generally stable and usually have moderate volatility or sensitivity, prospective investors should inform themselves about the different consumer goods markets in which the Issuer, the Guarantor and the

JAB-Group operate via their respective investments. In addition, the Issuer is not restricted in its exercise of discretion concerning its investment decisions and it cannot be excluded that one or more investments in which the Issuer, the Guarantor or the JAB-Group participates will operate in other markets. Therefore, it is possible that the Issuer will invest in other markets in the future. These markets could be more volatile or sensitive, which could adversely affect the earnings, business prospects and financial position of the Issuer's, the Guarantor's and the JAB-Group's investments and ultimately of the Issuer, the Guarantor and the JAB-Group.

### ***Liquidity Risk***

The Issuer, the Guarantor and the JAB-Group mainly depend on the cash flow and returns derived from their respective investments in the form of dividends or other distributions. The Issuer or the Guarantor may be required to sell its respective investments in part or in whole in order to be in a position to pay interest and principal on the New Notes. Investors should note that the proceeds of any such sale may need to be applied for mandatory prepayment of financial indebtedness other than the New Notes. As a consequence, Noteholders may be structurally subordinated in such a scenario. Furthermore, any such sale of the Issuer's or the Guarantor's assets may be at a time where the sale proceeds from such sale are not sufficient to pay interest and principal on the New Notes. It cannot be excluded that, at the time of redemption or maturity of the New Notes, no dividend will be paid under the investments of the Issuer and the Guarantor, no sale of the respective investments is possible and no credit facility or other financing is available. If the Issuer and/or the Guarantor do not have sufficient liquid assets at the time of any payment, there is a significant risk that an investor in the New Notes will lose all or some of its investment.

### ***Global Financial Crisis and Eurozone Debt Crisis***

In recent years, concerns about credit risk (including that of sovereigns) and the Eurozone crisis have intensified. The large sovereign debts and/or fiscal deficits of a number of European countries and the US have raised concerns regarding the financial condition of financial institutions, insurers and other corporates (i) located in these countries; (ii) that have direct or indirect exposure to these countries; and/or (iii) whose banks, counterparties, custodians, customers, service providers, sources of funding and/or suppliers have direct or indirect exposure to these countries. The default, or a significant decline in the credit rating, of one or more sovereigns or financial institutions could cause severe stress in the financial system generally and could adversely affect the markets in which the issuer operates and the businesses and economic condition and prospects of the Issuer's counterparties, customers, suppliers or creditors, directly or indirectly, in ways that are difficult to predict.

The impact of these conditions could be detrimental to the Issuer and the Guarantor and could adversely affect their earnings, financial position and profitability and those of their investment holdings as well as the Guarantor's credit rating and the ability of the Issuer and the Guarantor to meet their respective obligations under the New Notes, the Guarantee and their respective debt obligations more generally.

Prospective investors should ensure that they have sufficient knowledge and awareness of the Eurozone crisis, global financial crisis and the economic situation and outlook as they consider necessary to enable them to make their own evaluation of the risks and merits of an investment in the New Notes. In particular, prospective investors should take into account the considerable uncertainty as to how the Eurozone crisis, the global financial crisis and the wider economic situation will develop over time.

### ***Financial counterparty risk***

The Issuer and the Guarantor are exposed to financial institution counterparty risk and will continue to be exposed to the risk of loss if counterparty financial institutions fail or are otherwise unable to meet their obligations. Financial services institutions are inter-related as a result of trading, counterparty and other relationships. The Issuer and the Guarantor have exposure to many different industries and counterparties and routinely execute transactions with counterparties in the financial industry, financial intermediaries,

brokers and dealers, commercial banks and investment banks for their own account. Defaults by, or even the perceived creditworthiness or questioning of, one or more financial services institutions or the financial services industry in general, have led and may again lead to market wide liquidity problems and could also lead to losses or defaults. The exact nature of the risks faced by the Issuer and Guarantor is difficult to predict and guard against in view of the severity of the global financial crisis and the fact that many of the related risks to the business are totally, or in part, outside the control of the Issuer and the Guarantor.

#### ***Investment risks***

The Issuer, the Guarantor and the JAB-Group have made their investment decisions based on sound financial grounds in accordance with their investment principles and have kept their leverage at a level in line with the rating of the New Notes and the rating of the Guarantor. There is no assurance, however, that any current or future investments, if made, will not have a negative adverse impact on the Issuer's, the Guarantor's or the JAB-Group's financial condition in the short and/or medium term and on the rating of the New Notes or the corporate credit rating of the Guarantor.

The investment portfolio of the Issuer is continuously monitored and analysed by the Issuer through constant dialogue with the management or through direct participation through members in the management board or supervisory board of the companies in which the Issuer, the Guarantor and the JAB-Group are invested. However, the Issuer, the Guarantor and the JAB-Group may not be able to significantly influence the strategy of each of their investments at all times, e.g. as result of a minority participation of other investors or the Issuer, the Guarantor and the JAB-Group are not the sole investors in their respective ultimate investments (see structure chart in the section "*Description of the Issuer*"). Consequently, other investors may block any strategic decision in respect of the ultimate operating companies of the Issuer's, the Guarantor's or the JAB-Group's investment. No assurance can be given in relation to the future performance of the Issuer's, the Guarantor's or the JAB-Group's investment portfolio nor can it be assured that the investment portfolio will not vary substantially from time to time or that the Issuer, the Guarantor or the JAB-Group, given their nature as investment companies, will not dispose in whole or in part of any of their respective investments.

#### ***No limitation on issuing further debt and guarantees or on investments***

There is no restriction on the amount of debt or guarantees which the Issuer or the Guarantor may issue ranking equal with, or senior to, the obligations under or in connection with the New Notes. Such issuance of further debt and guarantees may reduce the amount recoverable by the Noteholders upon insolvency or winding-up of the Issuer.

Additionally, neither the Issuer nor the Guarantor is subject to a restriction on investments in other entities, which could ultimately subordinate the Noteholders' claims to obligations of such entities towards their respective creditors.

#### ***Strategic risks***

Failure to assess future market developments and/or overall negative economic development may adversely affect the businesses of the Issuer and the Guarantor. Corporate strategy risks can arise above all from the erroneous assessment of future market developments. Regulatory controls and changes in public policy may reduce the profitability of new or current business segments in which the Issuer is invested. Failure to evaluate potential acquisition targets, to integrate newly acquired businesses or to develop successfully new businesses may reduce the operating results of the Issuer. Significant unexpected costs for integration or development of businesses could also harm operating results.

#### ***Concentration risks***

As of 31 December 2015, the direct and indirect principal investment holdings of the Issuer, the Guarantor and the JAB-Group in Reckitt Benckiser Group Plc., Coty, Inc. and Acorn Holdings B.V. represented 85 %

of the gross asset value of the JAB-Group's assets. Other assets (such as JAB Luxury GmbH, JAB Coffee Holding B.V. and JAB Beech, Inc.) represented 15 % of the gross asset value of the JAB-Group's assets. Hence, there is a concentration risk within the portfolio whereby a loss affecting a single investment may have a significant negative impact on the overall performance of the Issuer, the Guarantor and the JAB-Group.

The results reported by the above-mentioned principal investment holdings will continue to significantly influence the Issuer's results and any failure to achieve the objectives, or a review of these objectives by those holdings as a consequence, inter alia, of the deterioration of the financial and economic condition and of global market conditions, may have a prejudicial effect on the results of operations, balance sheet and financial results, the activity, strategies and prospects of the Issuer, the Guarantor and the JAB-Group.

#### ***Currency exchange risks***

Significant fluctuations in exchange rates affect the financial results of the Issuer, the Guarantor and the JAB-Group. A significant portion of the JAB-Group's investments and related operations are outside the Eurozone. Despite employing mechanisms to hedge against currency exchange risk, the JAB-Group cannot preclude that fluctuations in currencies of countries outside the Eurozone, especially in U.S. dollar and British pound sterling as of the date of this Prospectus, may materially affect the results of the JAB-Group, including the Issuer and the Guarantor.

#### ***Group structure risks***

The obligations of the Issuer and the Guarantor incurred under the New Notes or the Guarantee, respectively, are solely obligations of the Issuer and the Guarantor. Any other JAB-Group entity or company in which the Issuer is invested does not have any obligation, contingent or otherwise, to pay any amounts due under the New Notes or the Guarantee or to make funds available to the Issuer or the Guarantor to pay any amounts due under the New Notes or the Guarantee. Furthermore, any claim of the Issuer in respect of its investments will rank behind any claims in respect of indebtedness incurred, and guarantees issued, by the company in which the Issuer is invested and claims of preference shareholders in such companies (if any). Therefore, the New Notes and the Guarantee will effectively be subordinated to creditors and preference shareholders (if any) of the Issuer's direct and indirect investments.

#### ***Operational Risks***

##### ***Insurance coverage***

The JAB-Group seeks to cover foreseeable risks through insurance. Such insurance coverage comprises management and usual liability risks. However, these insurances may not fully cover the risks to which the JAB-Group is exposed. This may be the case for insurance covering legal and administrative claims as well as for insurance covering other risks. For certain risks, adequate insurance coverage may not be available on the market or may not be available with reasonable conditions. Consequently, any harm resulting from the materialisation of these risks could result in significant capital expenditures and expenses as well as liabilities, thereby harming business and operating results.

##### ***Key personnel risk***

Success of the JAB-Group's business depends on the expertise and the dedication of the employees of the JAB-Group. The JAB-Group continuously strives to recruit qualified staff and to foster company loyalty. The risk of qualified employees leaving is particularly acute in key positions.

##### ***IT-system failures***

The JAB-Group is, to some degree, dependent on IT-infrastructure and IT-systems. A failure of such infrastructure and/or systems may prevent JAB-Group from operating at its best.

### ***Issuer's and Guarantor's financial information***

The Issuer's and the Guarantor's historical consolidated financial and operational performances may not be indicative of their respective future operating and financial performances. There can be no assurance of the Issuer's or Guarantor's continued profitability for future periods.

The loan to value table for the JAB-Group provided in this Prospectus shows the valuation of JAB-Group's investment portfolio, its net debt and its loan-to value ratio as of 31 March 2016 and as of 31 December 2015. The figures for 31 December 2015 have been extracted from the audited consolidated financial statements of JAB-Group. The figures as of 31 March 2016 are unaudited and for illustrative purposes only. The illustrative figures presented for 31 March 2016 do not necessarily reflect the fair value for all investments.

### ***Rating risks***

The Issuer's/Guarantor's/JAB-Group's ability to compete successfully in the market for funding depends on various factors, including financial stability as reflected by its operating results and credit ratings assigned by recognised credit agencies. As a result, a downgrade in such credit ratings may impact the Issuer's/Guarantor's/JAB-Group's ability to raise funding and this could adversely affect its business, financial condition and results of operations.

The current rating of the Guarantor is Baa1 with a negative outlook, as assigned by Moody's Investors Services Limited ("**Moody's**"), and BBB+ with a stable outlook, as assigned by Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. ("**S&P**").

Credit ratings are susceptible to change at any time, and in light of the above, the Guarantor's corporate credit rating could be downgraded at any time in accordance with the rating agencies criteria.

Please also refer to "*Credit ratings may not reflect all risks of investments in the New Notes*" below.

### **Risk Factors related to the structure of the New Notes**

#### ***New Notes may not be a suitable investment for all investors***

Each potential investor in the New Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the New Notes, the merits and risks of investing in the New Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the New Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the New Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the New Notes and be familiar with the behaviour of any relevant financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The New Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to a potential

investor's overall portfolio. A potential investor should not invest in the New Notes unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the New Notes will perform under changing conditions, the resulting effects on the value of such New Notes and the impact this investment will have on the potential investor's overall investment portfolio.

#### ***Fixed Rate Interest***

The New Notes will bear a fixed rate interest on their outstanding amount. Investors are exposed to the risk that the price of the New Notes may fall because of changes in the market yield. While the nominal interest rate (i.e. the coupon) of the New Notes is fixed during the life of the New Notes, the market yield typically changes on a daily basis. As the market yield changes, the price of the New Notes changes in the opposite direction. If the market yield increases, the price of the New Notes typically falls. If the market yield falls, the price of the New Note typically increases. Investors should be aware that movements of the market yield can adversely affect the price of the New Notes and can lead to losses for the investors.

Investors should also be aware that the market yield has two components, namely the risk free rate and the credit spread. The credit spread is reflective of the yield that investors require in addition to the yield on a risk free investment of equal tenor as a compensation for the risks inherent in the New Notes. The credit spread changes over time and can decrease as well as increase for a large number of different reasons. The market yield of the New Notes can change due to changes of the credit spread, the risk free rate, or both.

In addition, investors are exposed to reinvestment risk with respect to proceeds from coupon payments. If the market yield declines, and if investors want to invest such payments in comparable transactions, investors will only be able to reinvest such proceeds in comparable transactions at the then prevailing lower market yields.

#### ***Re-investment Risk***

The Issuer is entitled to terminate the New Notes early upon occurrence of a Gross-up Event (as defined in the Terms and Conditions). If the occurrence of such event becomes likely, the market value of the New Notes will probably be negatively affected and will generally not rise substantially above the price at which the New Notes can be redeemed.

In the case of such early redemption an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the New Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

#### ***Long-term securities***

The New Notes will be redeemed on 25 May 2023, unless they have been previously redeemed. The Issuer is under no obligation to redeem the New Notes at any time before this date. Investors have no right to call for early redemption of the New Notes except following a Change of Control or the occurrence of an Event of Default (each as further described in the Terms and Conditions). In the event that an investor calls the New Notes early investors may suffer a lower than expected yield and may not be able to reinvest the funds on the same terms. In the case of an Event of Default, the redemption proceeds may be lower than the invested amount and be zero resulting in a total loss for investors.

#### ***Risks in connection with the application of the German Act on Issues of Debt Securities (Gesetz über Schuldverschreibungen aus Gesamtemissionen)***

An investor is subject to the risk of being outvoted and of losing rights against the Issuer against his will where other investors agree to amendments of the Terms and Conditions by majority vote according to the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*) (the "**Bond Act**"). Noteholders shall pass resolutions by simple majority of the voting rights participating in the vote. According to Section 5(4) of the Bond Act, a qualified majority of at least 75% of the voting rights

participating in the vote is required if material provisions of the Terms and Conditions are to be amended. Any meeting of Noteholders shall have a quorum requiring Noteholders representing at least 50% of the outstanding Notes by value (Section 15(3) of the Bond Act) to be present at the meeting. If the quorum is not achieved during the (first) meeting, the chairman may convene a second meeting. Generally, the second meeting does not require a quorum, subject to any resolutions which require a qualified majority, in which case Noteholders representing at least 25% of the outstanding and not suspended (*nicht ruhend*) Notes must be present at the relevant meeting. In the case of an appointment of a noteholders' representative for all investors, a particular investor may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other investors.

#### ***10% quorum in case of certain events of default***

The Terms and Conditions provide that, in case of certain events of default, any notice declaring the Notes due and payable shall become effective only when the paying agent has received such default notices from Noteholders representing at least 10% of the aggregate principal amount of Notes then outstanding. In addition, under the Bond Act, even if a default notice had been given by a sufficient number of Noteholders, the Noteholders could rescind such acceleration by majority resolution within three months. A simple majority of votes would be sufficient for a resolution on the rescission of such acceleration but, in any case, more Noteholders would have to consent to a rescission than have delivered default notices.

#### ***Clearing System***

The New Notes will be represented by one or more Global Notes. Such Global Notes will be deposited with Clearstream Banking Aktiengesellschaft, Eschborn ("**Clearstream Frankfurt**" or "**Clearing System**"). Investors will not be entitled to receive definitive New Notes. Clearstream Frankfurt will maintain records of the beneficial interests in the Global Notes. While the New Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Clearstream Frankfurt and the Issuer will discharge its payment obligations under the New Notes by making payments to Clearstream Frankfurt or to its order for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Clearstream Frankfurt to receive payments under the New Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of beneficial interests in the Global Notes.

#### ***Legal investment considerations may restrict certain investments***

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) New Notes are legal investments for it, (2) New Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any New Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of New Notes under any applicable risk-based capital or similar rules.

#### ***European Initiative on Financial Transaction Tax***

On 14 February 2013, the EU Commission adopted a proposal for a Council Directive (the "**Draft Directive**") on a common financial transaction tax ("**FTT**"). According to the Draft Directive, the FTT shall be implemented in eleven EU Member States (Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Spain, Slovakia and Slovenia; the "**Participating Member States**").

Pursuant to the original proposal under the Draft Directive, the FTT had a very broad scope and would apply to certain dealings in financial instruments (including secondary market transactions) where at least one party is a financial institution, and either (i) at least one party is established or deemed to be established in a Participating Member State or (ii) the financial instruments are issued in a Participating Member State.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the New Notes where at least one party is a financial institution, and either (i) at least one party is established or deemed to be established in a Participating Member State or (ii) the financial instruments are issued in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

Ten of the Participating Member States (including Germany) announced at the end of 2015 that they intend to reach an agreement with regard to FTT by the end of June 2016, focussing initially on the taxation of shares and certain derivatives. Estonia recently stated that it will not participate. As to the further implementation of any FTT there is currently no detailed plan or timetable available.

Nevertheless the FTT remains subject to negotiation between the Participating Member States and the scope of any such tax is uncertain. It may be altered prior to its adoption, the timing of which remains unclear. Moreover, once any directive has been adopted, it will need to be implemented into the respective domestic laws of the Participating Member States and the domestic provisions implementing a directive might deviate from such directive. Finally, additional EU Member States may decide to participate.

Prospective holders of the New Notes should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing for, purchasing, holding and disposing of the New Notes.

#### ***Tax impact of the investment***

An effective yield on the New Notes may be diminished by the tax impact on an investment in the New Notes. Payments of interest on the New Notes, or profits realised by investors upon the sale or repayment of the New Notes, may be subject to taxation in their respective home jurisdiction or in other jurisdictions in which it is required to pay taxes. The tax impact on investors generally in Germany, the Netherlands and Luxembourg is described in the section "*Taxation*"; however, the tax impact on individual investors may differ from the situation described for investors generally.

All investors are advised to contact their own tax advisers for advice on the tax impact of an investment in the New Notes. Examples of a taxation risk that investors should consider together with their advisers include among others the risk of double taxation (in Germany and their home jurisdiction or another country, if applicable).

#### ***Change in tax law***

Investors should be aware that tax regulations and their application by the relevant taxation authorities are subject to change, possibly with retrospective effect, and that this could negatively affect the value of the New Notes. Any such change may cause the tax treatment of the New Notes to change from the tax position at the time of purchase and may render the statements in this Prospectus concerning the relevant tax law and practice inaccurate or insufficient to cover the material tax considerations in respect of the New Notes. It is not possible to predict the precise tax treatment which will apply at any given time and changes in tax law may give the Issuer the right to redeem the New Notes.

#### ***Change of law in general***

The Terms and Conditions of the New Notes are based on German law in effect as of the date of issue of the relevant New Notes. No assurance can be given as to the impact of any possible judicial decision or change to German law or administrative practice after the date of issue of the New Notes.

## **Risks related to the market generally**

### ***The secondary market generally***

Although application has been made for the New Notes to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading on the Euro MTF, the New Notes may have no established trading market when issued, and one may never develop. Even if a market develops, it may not be liquid. Therefore, investors may not be able to sell their New Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case to the extent the New Notes are sensitive to interest rate, currency or market risks. The New Notes may be very price volatile and as a consequence only a limited secondary market may develop (if any). Illiquidity may have a severely adverse effect on the market value of the New Notes.

### ***Exchange rate risks and exchange controls***

The Issuer will pay principal and interest on the New Notes in Euro. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than Euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (1) the Investor's Currency-equivalent yield on the New Notes, (2) the Investor's Currency equivalent value of the principal payable on the New Notes and (3) the Investor's Currency equivalent market value of the New Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

### ***Credit ratings may not reflect all risks and are subject to change***

The ratings assigned to the Guarantor and the New Notes, respectively, may not reflect the potential impact of all risks related to structure, market, additional factors discussed above and other factors that may affect the value of the New Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Rating agencies may also change their methodologies for rating companies such as the Guarantor and securities with features similar to the New Notes in the future. If the rating agencies were to change their practices in the future and the ratings of the Guarantor and the New Notes, respectively, were to be subsequently lowered, this may have a negative impact on the trading price of the New Notes.

### ***The market value of the New Notes could decrease if the creditworthiness of the Issuer, the Guarantor or the JAB-Group deteriorates***

If the likelihood decreases that the Issuer and the Guarantor will be in a position to fully perform all obligations under the New Notes and the Guarantee, as applicable, as they become due, for example, because of the materialisation of any of the risks regarding the JAB-Group, the Issuer and/or the Guarantor, the market value of the New Notes may fall. In addition, even if the likelihood that the Issuer and the Guarantor will be in a position to fully perform all obligations under the New Notes as they fall due does not decrease, market participants could nevertheless have a different perception. Furthermore, the market participants' estimation of the creditworthiness of corporate debtors in general or debtors operating in the same business as the JAB-Group could change for the worse. If any of these risks materialises, third parties may only be willing to purchase New Notes for a lower price than before the materialisation of mentioned risk. Under these circumstances, the market value of the New Notes may decrease.

### ***Transaction costs***

Transaction costs reduce the yield an investor will realise on the investment in the New Notes. When New Notes are purchased, several types of incidental costs (including transaction fees and commissions) are incurred and will have to be paid by the buyer in addition to the then prevailing market price. Similarly, when an investor sells any New Notes, such incidental costs will reduce the actual price an investor will receive for each New Note sold. These incidental costs may significantly reduce or even exclude the profit potential of an investment in the New Notes. For instance, credit institutions as a rule charge their clients commissions which are either fixed minimum commissions or pro rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic managers or brokers in foreign markets, investors must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of New Notes (direct costs), investors must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the New Notes before investing in the New Notes.

### ***Margin lending***

Margin lending, where it is permitted, can materially increase the risk to investors of incurring losses. If a loan is used to finance the purchase of the New Notes and the New Notes subsequently go into default, or if the trading price diminishes significantly, an investor not only has to face a potential loss on its investment, but it will also still have to repay the loan and pay interest thereon. This may significantly increase the risk of a loss. Investors should not assume that they will be able to repay the loan or pay interest thereon from the profits of a transaction. Instead, investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, or to repay the loan on demand, even if they face losses on such investment.

### ***Market volatility and other factors***

The trading market for debt securities may be volatile and may be adversely impacted by many events. The market for debt securities is influenced by economic and market conditions in Germany and, to varying degrees, by market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in Germany, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of New Notes. Investors also bear the risk that economic and market conditions will have any other adverse effect on the trading pattern and the market value of the New Notes.

## § 2 Status, Negative Pledge and Guarantee

- (a) *Status*. The Notes constitute unsubordinated and, subject to the Guarantee, unsecured obligations of the Issuer ranking *pari passu* among themselves and, in the event of the dissolution, liquidation or insolvency of the Issuer or any proceeding to avoid insolvency of the Issuer, *pari passu* with all other present

Emittentin dienenden Verfahrens, im gleichen Rang mit allen anderen gegenwärtigen und zukünftigen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin stehen, mit Ausnahme von Verbindlichkeiten, die nach geltenden Rechtsvorschriften vorrangig sind.

- (b) *Negativerklärung der Emittentin.* Solange noch Kapital- oder Zinsbeträge aus den Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle auf die Schuldverschreibungen gemäß diesen Anleihebedingungen zu zahlenden Beträge an Kapital und Zinsen dem Clearingsystem zur Verfügung gestellt worden sind, verpflichtet sich die Emittentin, kein Grundpfandrecht, Mobiliarpfandrecht, Pfandrecht oder sonstiges dingliches Sicherungsrecht (jedes ein "**Sicherungsrecht**") an ihren gesamten gegenwärtigen oder zukünftigen Vermögenswerten oder Einkünften oder Teilen davon zur Besicherung einer Kapitalmarktverbindlichkeit zu gewähren oder bestehen zu lassen, ohne zuvor oder gleichzeitig entweder die Anleihegläubiger gleichrangig und anteilig an einem solchen Sicherungsrecht zu beteiligen oder zu Gunsten der Anleihegläubiger ein anderes, gleichwertiges Sicherungsrecht zu bestellen, welches von einem unabhängigen Sachverständigen als gleichwertige Sicherheit beurteilt wird.

Die vorgenannte Verpflichtung findet keine Anwendung auf ein Sicherungsrecht, das (i) nach dem anzuwendenden Recht zwingend notwendig oder (ii) als Voraussetzung einer staatlichen Genehmigung erforderlich ist.

Ein nach § 2(b) zu leistendes Sicherungsrecht kann auch zu Gunsten eines für die Anleihegläubiger handelnden Treuhänders bestellt werden.

"**Kapitalmarktverbindlichkeit**" ist jede gegenwärtige oder zukünftige Verbindlichkeit der Emittentin, der Garantin oder eines Dritten in der Form von Schuldverschreibungen oder ähnlichen Instrumenten mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen

- (b) *Negative pledge of the Issuer.* So long as any amounts of interest or principal remain outstanding under the Notes, but only up to the time all amounts payable to Noteholders under the Notes in accordance with these Terms and Conditions have been placed at the disposal of the Clearing System, the Issuer undertakes not to create or permit to subsist any mortgage, charge, pledge or other form of encumbrance *in rem* (each a "**Security Interest**") over the whole or any part of its present or future assets or revenues to secure any Capital Market Indebtedness, without prior thereto or at the same time letting the Noteholders either share equally and ratably in such Security Interest or benefit from an equivalent other Security Interest which will be approved by an independent expert as being equivalent security.

The above undertaking will not apply to a Security Interest which is (i) mandatory according to applicable laws or (ii) required as a prerequisite for governmental approvals.

Any Security Interest which is to be provided pursuant to § 2(b) may also be provided to a person acting as trustee for the Noteholders.

"**Capital Market Indebtedness**" means any indebtedness, present or future, of the Issuer, the Guarantor or any third party in the form of Notes or bond or similar instruments with an original maturity of more than one year, which can be traded on any stock exchange or other securities market.

Die Garantie ist ein Vertrag zugunsten jedes Anleihegläubigers als begünstigtem Dritten gem. § 328 Absatz 1 BGB, der das Recht begründet, die Garantin unmittelbar aus der Garantie auf Erfüllung in Anspruch zu nehmen und Ansprüche aus der Garantie gegen die Garantin unmittelbar durchzusetzen.

(d) *Negativerklärung der Garantin.* In der Garantie hat sich die Garantin verpflichtet, solange noch Kapital- oder Zinsbeträge aus den Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle auf die Schuldverschreibungen gemäß diesen Anleihebedingungen fälligen Beträge an Kapital und Zinsen dem Clearingsystem zur Verfügung gestellt worden sind, kein Sicherungsrecht an ihren gesamten gegenwärtigen oder zukünftigen Vermögenswerten oder Einkünften oder Teilen davon zur Besicherung einer anderen gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeit zu gewähren, ohne zuvor oder gleichzeitig entweder die Anleihegläubiger gleichrangig und anteilig an einem solchen Sicherungsrecht zu beteiligen oder zu Gunsten der Anleihegläubiger ein anderes, gleichwertiges Sicherungsrecht zu bestellen, welches von einem unabhängigen Sachverständigen als gleichwertige Sicherheit beurteilt wird.

Die vorgenannte Verpflichtung findet keine Anwendung auf ein Sicherungsrecht, das (i) nach dem anzuwendenden Recht zwingend notwendig oder (ii) als Voraussetzung einer staatlichen Genehmigung erforderlich ist.

(c) *Guarantee.* The Guarantor has given an unconditional and irrevocable guarantee pursuant to a guarantee dated June 2016 (the "**Guarantee**") for the due payment of principal of, and interest on, and any other amounts expressed to be payable under the New Notes. The Guarantee constitutes a contract for the benefit of the Noteholders from time to time as third party beneficiaries in accordance with § 328 paragraph 1 of the German Civil Code (*Bürgerliches Gesetzbuch*), giving rise to the right of each Noteholder to require performance under the Guarantee directly from the Guarantor and to enforce the Guarantee directly against the Guarantor.

(d) *Negative Pledge of the Guarantor.* In the Guarantee the Guarantor has undertaken, so long as any amounts of interest or principal remain outstanding under the Notes, but only up to the time all amounts due to Noteholders under the Notes in accordance with these Terms and Conditions have been placed at the disposal of the Clearing System, not to create or permit to subsist any Security Interest over the whole or any part of its present or future assets or revenues to secure any Capital Market Indebtedness, without prior thereto or at the same time letting the Noteholders either share equally and ratably in such Security Interest or benefit from an equivalent other Security Interest which will be approved by an independent expert as being equivalent security.

The above undertaking will not apply to a Security Interest which is (i) mandatory according to applicable laws or (ii) required as a prerequisite for governmental approvals.

Any Security Interest which is to be provided pursuant to the Guarantee may also be provided to a person acting as trustee for the Noteholders.

### § 3 Zinsen

- (a) *Zinssatz und Zinszahlungstage.* Die Schuldverschreibungen werden bezogen auf ihren ausstehenden Nennbetrag ab dem 25. Mai 2016 (der "**Verzinsungsbeginn**") (einschließlich) bis zum Endfälligkeitstag (ausschließlich) verzinst.

Die Schuldverschreibungen werden mit jährlich 1,75 % verzinst. Die Zinsen sind nachträglich an jedem Zinszahlungstag zahlbar.

"**Zinszahlungstag**" bezeichnet den 25. Mai eines jeden Jahres, erstmals den 25. Mai 2017.

- (b) *Zinstagequotient.* Zinsen für einen beliebigen Zeitraum (ausgenommen ist ein etwaiger Zeitraum, für den ein Bruchteilzinsbetrag festgelegt ist) werden auf der Grundlage des Zinstagequotienten berechnet.

"**Zinstagequotient**" bezeichnet bei der Berechnung des Zinsbetrages für einen beliebigen Zeitraum (ab dem ersten Tag dieses Zeitraums (einschließlich) bis zum letzten Tag dieses Zeitraums (ausschließlich)) (der "**Zinsberechnungszeitraum**"):

- (i) wenn der Zinsberechnungszeitraum der Feststellungsperiode entspricht, in die er fällt, oder kürzer als diese ist, die Anzahl von Tagen in dem Zinsberechnungszeitraum dividiert durch das Produkt aus (A) der Anzahl von Tagen in der betreffenden Feststellungsperiode und (B) der Anzahl der Feststellungsperioden, die üblicherweise in einem Jahr enden; und
- (ii) wenn der Zinsberechnungszeitraum länger als eine Feststellungsperiode ist, die Summe aus:
- (A) der Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum, die in die Feststellungsperiode fallen, in der der Zinsberechnungszeitraum beginnt, dividiert durch das

### § 3 Interest

- (a) *Rate of interest and Interest Payment Dates.* The Notes bear interest on their outstanding principal amount from and including 25 May 2016 (the "**Interest Commencement Date**") to but excluding the Maturity Date.

The Notes bear interest at the rate of 1.75 per cent. per annum, such interest being payable in arrear on each Interest Payment Date.

"**Interest Payment Date**" means 25 May in each year, commencing on 25 May 2017.

- (b) *Day Count Fraction.* If interest is required to be calculated for any period of time (other than any period of time for which a broken interest amount has been fixed), such interest shall be calculated on the basis of the Day Count Fraction.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest on any Note for any period of time (from and including the first day of such period to but excluding the last day of such period) (the "**Calculation Period**"):

- (i) if the Calculation Period is equal to or shorter than the Determination Period during which it falls, the number of days in the Calculation Period divided by the product of (A) the number of days in such Determination Period and (B) the number of Determination Periods normally ending in any year; and
- (ii) if the Calculation Period is longer than one Determination Period, the sum of:
- (A) the number of days in such Calculation Period falling in the Determination Period in which the Calculation Period begins divided by the product of (1) the number of days in such Determination Period and (2) the

Produkt aus (1) der Anzahl der Tage in der betreffenden Feststellungsperiode und (2) der Anzahl der Feststellungsperioden, die üblicherweise in einem Jahr enden; und

- (B) die Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum, die in die nachfolgende Feststellungsperiode fallen, dividiert durch das Produkt aus (1) der Anzahl der Tage in der betreffenden Feststellungsperiode und (2) der Anzahl der Feststellungsperioden, die üblicherweise in einem Jahr enden.

Dabei gilt Folgendes:

"**Feststellungstermin**" bezeichnet den 25. Mai eines jeden Jahres;

"**Feststellungsperiode**" bezeichnet jeden Zeitraum ab einem Feststellungstermin (einschließlich), der in ein beliebiges Jahr fällt, bis zum nächsten Feststellungstermin (ausschließlich).

- (c) *Ende des Zinslaufs.* Der Zinslauf der Schuldverschreibungen endet an dem Ende des Tages, der dem Tag vorausgeht, an dem sie zur Rückzahlung fällig werden. ## **USE OF PROCEEDS**

The net proceeds of the issuance of New Notes will be used for general corporate purposes of the Issuer, including the refinancing of existing indebtedness.

## DESCRIPTION OF THE ISSUER

### *Incorporation and Seat*

The Issuer is a privately held company which was incorporated under Dutch law on 5 October 2005. The registered office and the head office are located at Oudeweg 147, 2031 CC Haarlem, The Netherlands and the company is registered in the trade register maintained by the Dutch chamber of commerce under the registration number 34233247.

### *Reorganisation of the JAB-Group*

In December 2013, the managing board of the Issuer and JAB Holdings II B.V. agreed on and entered into a merger agreement, pursuant to which JAB Holdings II B.V. merged, in accordance with the rules on statutory mergers pursuant to Section 333 paragraph 1 of Book 2 of the Dutch Civil Code, into the Issuer as the acquiring and surviving entity, and transferred the rights to the property, rights and interests and liabilities of JAB Holdings II B.V. to the Issuer (the "**Merger**"). Upon completion of the Merger, JAB Holdings II B.V. ceased to exist. In preparation of the Merger (i) Donata Holdings B.V. contributed its whole participation in JAB Holdings II B.V. to the Guarantor in return for approximately 37% of the ordinary shares in the Guarantor, (ii) the Guarantor contributed the JAB Holdings II B.V. participation to the Issuer, and (iii) all preferred shares of JAB Holdings II B.V. held by the Issuer were cancelled. The Merger entered into effect on 21 January 2014 one day after the execution of the deed of legal merger ("**Effective Date**") and JAB Holdings II B.V. was deregistered on 21 January 2014.

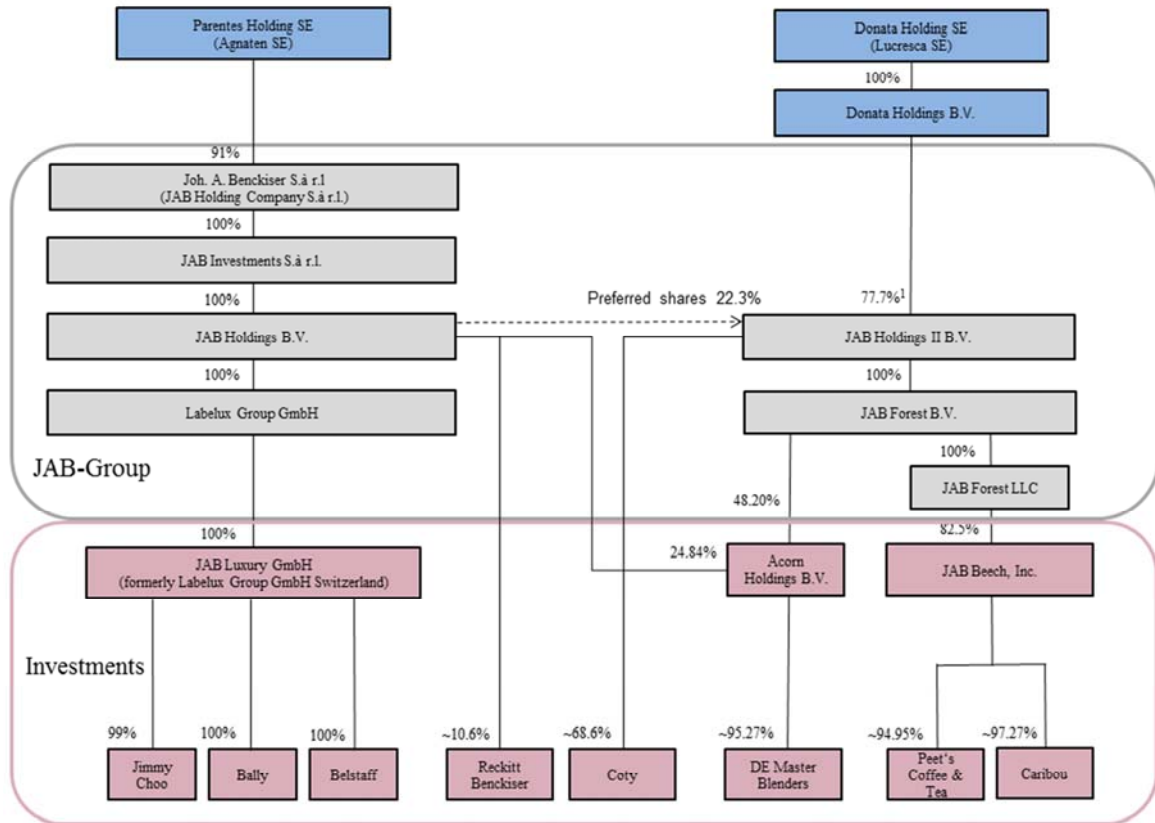

The reason for the Merger was twofold. First, the simplification of the legal structure was expected to provide benefits, among other things, for internal and external communication, for administration of governance and for general administration, legal, tax, treasury and accounting purposes. Second, the new holding structure was expected to result in improved opportunities to raise finance due to a consequential easing of bank relationships, increase in private placement issuances and increased opportunities to tap the bond market and to obtain a public rating.

Subsequent to the Merger, there have been changes in the legal names of the holding companies. In February 2014, Joh. A. Benckiser S.à r.l. changed its legal name to JAB Holding Company S.à r.l. and in April 2014, Parentes Holding SE changed its legal name to Agnaten SE and Donata Holding SE changed its legal name to Lucesca SE. The change in the legal structure did not result in a change of management or governance structure.

JAB Forest LLC merged into JAB Beech, Inc. as the acquiring and surviving entity on 6 August 2014. Upon completion of the merger, all assets, rights and liabilities of JAB Forest LLC were transferred to JAB Beech, Inc. and JAB Forest LLC was dissolved. The merger was approved, adopted, certified, executed and acknowledged in accordance with the Limited Liability Company Act of the State of Delaware and the General Corporation Law of the State of Delaware on 6 August 2014.

In September 2014, JAB Cosmetics B.V. ("**JAB Cosmetics**") was formed as a wholly-owned subsidiary of the Issuer. The Issuer transferred its entire investment in Coty to JAB Cosmetics on 16 September 2014.

## TAXATION

The following comments are of a general nature and included herein solely for information purposes. They are based on the relevant laws currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive effect. These comments cannot replace legal or tax advice. No representation with respect to the consequences to any particular prospective holder of a Note is made hereby.

**Prospective holders of a Note should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the New Notes, including the application and effect of any federal, state or local taxes in each country in which they are resident or of which they are citizens and in all relevant jurisdictions.**

### Federal Republic of Germany

The following general description does not consider all aspects of income taxation in Germany that may be relevant to a Noteholder in the light of its particular circumstances and income tax situation. This general overview is based on German tax laws and regulations, all as currently in effect and all subject to change at any time, possibly with retroactive effect. Prospective Noteholders should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the New Notes, including the application and effect of state, local, foreign and other tax laws and the possible effects of changes in the tax laws of Germany.

#### German tax residents holding New Notes as private assets

##### *Taxation of income from the New Notes*

If the New Notes are held as private assets (*Privatvermögen*) by an individual investor whose residence or habitual abode is in Germany, payments of interest under the New Notes are taxed as investment income (*Einkünfte aus Kapitalvermögen*) at a 25% flat tax (*Abgeltungsteuer*) (plus a 5.5% solidarity surcharge (*Solidaritätszuschlag*) thereon and, if applicable to the individual investor, church tax (*Kirchensteuer*)).

The same applies to capital gains from the sale or redemption of the New Notes. The capital gain is generally determined as the difference between the proceeds from the sale or redemption of the New Notes and the acquisition costs. Expenses directly and factually related (*unmittelbarer sachlicher Zusammenhang*) to the sale or redemption are taken into account in computing the taxable gain. Otherwise the deduction of related expenses for tax purposes is not permitted.

Where the New Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted in Euro at the time of sale, and only the difference will then be computed in Euro.

The flat tax is generally collected by way of withholding (see subsequent paragraph – *Withholding tax*) and the tax withheld shall generally satisfy the individual investor's tax liability with respect to the New Notes. If, however, no or not sufficient tax was withheld (e.g., in case there is no Domestic Paying Agent as defined below), the investor will have to include the income received with respect to the New Notes in its annual income tax return. The flat tax will then be collected by way of tax assessment. The investor may also opt for inclusion of investment income in its income tax return if the aggregated amount of tax withheld on investment income during the year exceeded the investor's aggregated flat tax liability on investment income (e.g., because of available losses carried forward or foreign tax credits). If the investor's individual income tax rate which is applicable on all taxable income including the investment income is lower than 25% the investor may opt to be taxed at individual progressive rates with respect to its investment income.

Capital losses from the sale and redemption of the New Notes held as private assets should generally be tax-recognised irrespective of the holding period of the New Notes. However, in cases where the sales price does not exceed the transaction costs, any capital losses might not be recognised by the German tax authorities (this view has however been challenged by a final judgment of a German lower fiscal court). Any recognized capital losses may not be used to offset other income like employment or business income but may only be offset against investment income. Capital losses not utilised in one annual assessment period may be carried forward into assessment periods but may not be carried back into preceding assessment periods.

Individual investors are entitled to a saver's lump sum tax allowance (*Sparer-Pauschbetrag*) for investment income of EUR 801 per year (EUR 1,602 for jointly assessed investors). The saver's lump sum tax allowance is considered for purposes of the withholding tax (see subsequent paragraph – *Withholding tax*) if the investor has filed a withholding tax exemption request (*Freistellungsauftrag*) with the respective Domestic Paying Agent (as defined below). The deduction of related expenses for tax purposes is not permitted.

#### *Withholding tax*

If the New Notes are kept or administered in a domestic securities deposit account with a German credit institution (*Kreditinstitut*) or financial services institution (*Finanzdienstleistungsinstitut*) (or with a German branch of a foreign credit or financial services institution), or with a German securities trading company (*Wertpapierhandelsunternehmen*) or with a German securities trading bank (*Wertpapierhandelsbank*) (each a "**Domestic Paying Agent**") which pays or credits the interest, a 25% withholding tax, plus a 5.5% solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375%, is levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which, in the case of interest received as of 1 January 2015, is provided for as a standard procedure unless the Noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

Capital gains from the sale or redemption of the New Notes are also subject to the 25% withholding tax, plus a 5.5% solidarity surcharge thereon, if the New Notes are kept or administered by a Domestic Paying Agent effecting the sale or redemption from the time of their acquisition. If the New Notes were sold or redeemed after being transferred to a securities deposit account with a Domestic Paying Agent, 25% withholding tax (plus solidarity surcharge thereon) would be levied on 30% of the proceeds from the sale or the redemption, as the case may be, unless the investor or the previous depository bank was able and allowed to prove evidence for the investor's actual acquisition costs to the current Domestic Paying Agent. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which, in the case of capital gains received as of 1 January 2015, is provided for as a standard procedure unless the Noteholder has filed a blocking notice with the German Federal Central Tax Office.

### **German tax resident investors holding the New Notes as business assets**

#### *Taxation of income from the New Notes*

If the New Notes are held as business assets (*Betriebsvermögen*) by an individual or corporate investor which is tax resident in Germany (i.e., a corporation with its statutory seat or place of management in Germany), interest income and capital gains from the New Notes are subject to personal income tax at individual progressive rates or corporate income tax (plus a 5.5% solidarity surcharge thereon and church tax, if applicable) and, in general, trade tax. The effective trade tax rate depends on the applicable trade tax factor (*Gewerbesteuer-Hebesatz*) of the relevant municipality where the business is located. In case of individual investors the trade tax may, however, be partially or fully creditable against the investor's personal income tax liability depending on the applicable trade tax factor and the investor's particular circumstances.

Capital losses from the disposal or redemption of the New Notes should generally be tax-recognised and may generally be offset against other income.

#### *Withholding tax*

If the New Notes are kept or administered by a Domestic Paying Agent which pays or credits the interest, a 25% withholding tax, plus a 5.5% solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375% is generally levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which, in the case of interest received as of 1 January 2015, is provided for as a standard procedure unless the Noteholder has filed a blocking notice with the German Federal Central Tax Office.

No withholding is generally required on capital gains from the disposal or redemption of the New Notes which is derived by German resident corporate investors and, upon application, by individual investors holding the New Notes as assets of a German business, subject to certain requirements.

Any capital losses incurred from the disposal or redemption of the New Notes will not be taken into account for withholding tax purposes. If withholding tax is levied, the withholding tax does not satisfy the investor's personal or corporate income tax liability with respect to the New Notes. The income from the New Notes will have to be included in the investor's personal or corporate income tax return. Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

#### **Non-German tax resident investors**

Income derived from the New Notes by Noteholders who are not tax resident in Germany is in general not subject to German income taxation, and no withholding tax shall be withheld, unless (i) the New Notes are held as business assets of a German permanent establishment of the investor or by a permanent German representative of the investor, (ii) the income derived from the New Notes otherwise constitutes German source income (such as income from the letting and leasing of certain property located in Germany) or (iii) the income is paid by a Domestic Paying Agent against presentation of the New Notes or interest coupons (so-called over-the-counter transaction, *Tafelgeschäfte*).

If the income derived from the New Notes is subject to German taxation according to (i) through (iii) above, the income is subject to German income taxation and withholding tax similar to that described above for German tax residents. Under certain circumstances, foreign investors may benefit from tax reductions or tax exemptions under applicable double taxation treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

#### **Inheritance tax and gift tax**

The transfer of the New Notes to another person by way of gift or inheritance is subject to German gift or inheritance tax, respectively, if *inter alia*

- (i) the testator, the donor, the heir, the donee or any other acquirer had their residence, habitual abode or, in case of a corporation, association (*Personenvereinigung*) or estate (*Vermögensmasse*), has its seat or place of management in Germany at the time of the transfer of property,
- (ii) except as provided under (i), the testator's or donor's New Notes belong to a business asset attributable to a permanent establishment or a permanent representative in Germany.

Special regulations may apply to certain German expatriates.

Prospective investors are urged to consult with their tax adviser to determine the particular inheritance or gift tax consequences in light of their particular circumstances.

## Other taxes

The purchase, sale or other disposal of the New Notes does not, at present, give rise to capital transfer tax, value added tax, stamp duties or similar taxes or charges in Germany. However, under certain circumstances entrepreneurs may choose liability to value added tax with regard to the sales of the New Notes to other entrepreneurs which would otherwise be tax exempt. Net wealth tax (*Vermögensteuer*) is, at present, not levied in Germany.

## The Netherlands

### Introduction

The following summary does not purport to be a comprehensive description of all Netherlands tax considerations that could be relevant to holders of the New Notes. This summary is intended for general information only. Each prospective holder should consult a professional tax adviser with respect to the tax consequences of an investment in the New Notes. This summary is based on Netherlands tax legislation and published case law in force as of the date of this Prospectus. It does not take into account any developments or amendments thereof after that date, whether or not such developments or amendments have retroactive effect. For the purposes of this section, "The Netherlands" shall mean that part of the Kingdom of the Netherlands that is in Europe.

### Scope

Regardless of whether or not a holder of New Notes is, or is treated as being, a resident of the Netherlands, with the exception of the section on withholding tax below, this summary does not address the Netherlands tax consequences for such a holder:

- (i) having a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the Issuer and holders of New Notes of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (statutory defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- (ii) who is a private individual and who may be taxed in box 1 for the purposes of Netherlands income tax (*inkomstenbelasting*) as an entrepreneur (*ondernemer*) having an enterprise (*onderneming*) to which the New Notes are attributable, or who may otherwise be taxed in box 1 with respect to benefits derived from the New Notes;
- (iii) who is a person to whom the New Notes and the income from the New Notes are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of The Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) and the Netherlands Gift and Inheritance Tax Act 1956 (*Successiewet 1956*);
- (iv) which is a corporate entity and a taxpayer for the purposes of Netherlands corporate income tax (*vennootschapsbelasting*), having a participation (*deelneming*) in the Issuer (such a participation is generally present in the case of an interest of at least 5% of the Issuer's nominal paid-in capital);
- (v) which is a corporate entity and an exempt investment institution (*vrijgestelde beleggingsinstelling*) or investment institution (*beleggingsinstelling*) for the purposes of Netherlands corporate income tax, a pension fund, or otherwise not a taxpayer or exempt for tax purposes;

- (vi) corporate entities which are a resident of Aruba, Curacao or Sint Maarten that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Sint Eustatius or Saba, to which permanent establishment or permanent representative the New Notes are attributable; or
- (vii) which is not considered the beneficial owner (*uiteindelijk gerechtigde*) of the New Notes and/or the benefits derived from the New Notes.

### **Withholding tax**

All payments made by the Issuer under the New Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, provided that the New Notes do not in fact function as equity of the Issuer within the meaning of article 10, paragraph 1, under d of the Netherlands Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*).

### **Income tax**

*Resident holders:* A holder who is a private individual and a resident, or treated as being a resident of the Netherlands for the purposes of Netherlands income tax, must record New Notes as assets that are held in box 3. Taxable income with regard to the New Notes is then determined on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. This deemed return is fixed at a rate of 4% of the holder's yield basis (*rendementsgrondslag*) at the beginning of the calendar year, insofar as the yield basis exceeds a certain threshold (*heffingvrij vermogen*). Such yield basis is determined as the fair market value of certain qualifying assets held by the holder of the New Notes, less the fair market value of certain qualifying liabilities at the beginning of the calendar year. The fair market value of the New Notes will be included as an asset in the holder's yield basis. The deemed return on income from savings and investments is taxed at a rate of 30%.

*Non-resident holders:* A holder who is a private individual and neither a resident, nor treated as being a resident, of The Netherlands for the purposes of Netherlands income tax, will not be subject to such tax in respect of benefits derived from the New Notes, unless such holder is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise which is effectively managed in The Netherlands, to which enterprise the New Notes are attributable.

### **Corporate income tax**

*Resident holders:* A holder which is a corporate entity and, for the purposes of Netherlands corporate income tax, a resident, or treated as being a resident, of The Netherlands, is taxed in respect of benefits derived from the New Notes at rates of up to 25%.

*Non-resident holders:* A holder which is a corporate entity and, for the purposes of Netherlands corporate income tax, is neither a resident, nor treated as being a resident, of The Netherlands, will not be subject to corporate income tax, unless such holder has an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in The Netherlands, a Netherlands Enterprise (*Nederlandse onderneming*), to which Netherlands Enterprise the New Notes are attributable, or such holder is (other than by way of securities) entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, which is effectively managed in The Netherlands and to which enterprise the New Notes are attributable. Such holder is taxed in respect of benefits derived from the New Notes at rates of up to 25%.

### **Gift and inheritance tax**

*Resident holders:* Netherlands gift tax or inheritance tax (*schenk- of erfbelasting*) will arise in respect of an acquisition (or deemed acquisition) of New Notes by way of a gift by, or on the death of, a holder of New Notes who is a resident, or treated as being a resident, of The Netherlands for the purposes of Netherlands gift and inheritance tax.

*Non-resident holders:* No Netherlands gift tax or inheritance tax will arise in respect of an acquisition (or deemed acquisition) of New Notes by way of a gift by, or on the death of, a holder of New Notes who is neither a resident, nor treated as being a resident, of The Netherlands for the purposes of Netherlands gift and inheritance tax.

### **Other taxes**

No Netherlands value added tax (*omzetbelasting*) will arise in respect of any payment in consideration for the issue of New Notes, with respect to any cash settlement of New Notes or with respect to the delivery of New Notes. Furthermore, no Netherlands registration tax, capital tax, transfer tax or stamp duty (nor any other similar tax or duty) will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of New Notes.

### **Residency**

A holder will not become a resident, or a deemed resident, of The Netherlands for Netherlands tax purposes by reason only of holding the New Notes.

### **Luxembourg**

The statements herein regarding withholding taxes in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Prospectus and are subject to any changes in law. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the New Notes. Each prospective holder or beneficial owner of the New Notes should consult its tax adviser as to the Luxembourg tax consequences of the ownership and disposition of the New Notes.

### **Withholding tax**

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to or to the benefit of Luxembourg resident individual Noteholders, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) to Noteholders. There is also no Luxembourg withholding tax, with the possible exception of payments made to or to the benefit of Luxembourg resident individual Noteholders, upon repayment of principal in case of reimbursement, redemption, repurchase or exchange of the New Notes to Noteholders.

Pursuant to the Luxembourg law dated 23 December 2005, as amended (the "**Law**"), interest payments made by Luxembourg paying agents (within the meaning of the Law) to Luxembourg resident individuals or to certain residual entities that secure interest payments on behalf of such individuals (unless such entities have opted either to be treated as UCITS recognised in accordance with Directive 2009/65/EC of the European Parliament and of the Council, or for the exchange of information regime) are subject to a 10% withholding tax. Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

### **Taxation of Luxembourg non-residents**

Noteholders who are non-residents of Luxembourg and who do not have a permanent establishment, a permanent representative or a fixed base of business in Luxembourg with which the holding of the New

Notes is connected, will not be subject to taxes (income taxes and net wealth tax) or duties in Luxembourg with respect to payments of principal or interest (including accrued but unpaid interest), payments received upon redemption, repurchase or exchange of the New Notes or capital gains realised upon disposal or repayment of the New Notes.

Prospective Noteholders who are in any doubt as to their position should consult their own tax advisers.

However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments.
